Administrative		

Create a folder

Visit myguide.org and download IE 11 Player

Extract the .msi file

Put this file into the previously created folder

To convert this into a shared network folder, right click on it and select "Properties"

Go to "Sharing Properties" and click "Share"

Enter "Everyone" and click "Add"

Click on "Share"

Click "OK"

After running this, whenever users will start their PC, they will find the extension installed

To forcefully install the extension, switch to the client PC and run gpupdate /force command

Go to "Internet Explorer"

You will see the widget icon of MyGuide player

In the Manage Add-ons section, we can see the extension

Thank You!

myguide.org
