# How to use Console Debugging with MyGuide

## Step: 01

Right click on the page and select "Inspect" to open up the inspect tool page

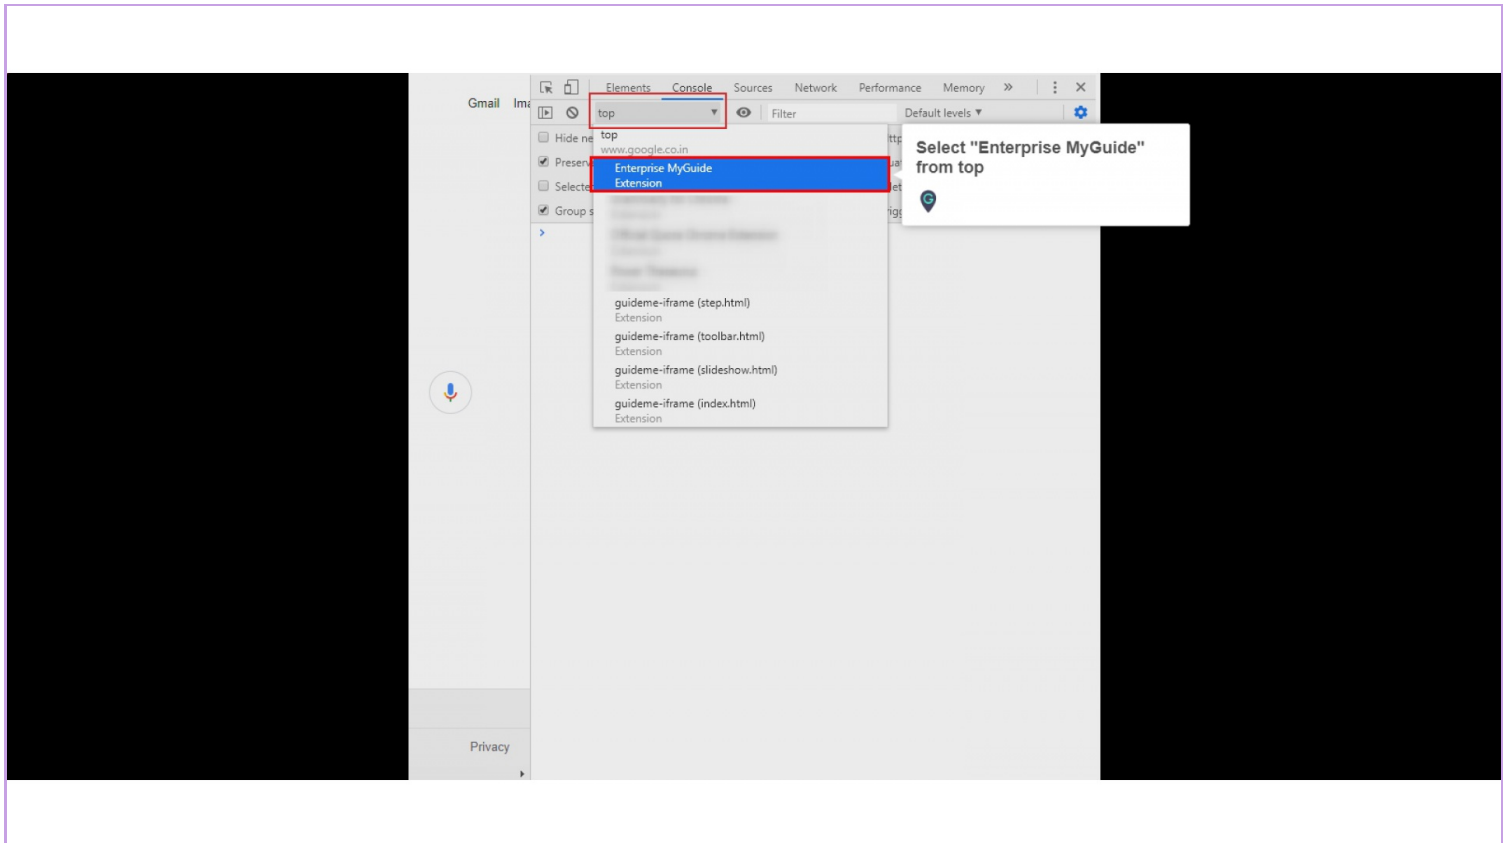

About Store

Google

Back	Alt+Left Arrow
Forward	Alt+Right Arrow
Reload	Ctrl+R
Save as...	Ctrl+S
Print...	Ctrl+P
Cast...	
Translate to English	
View page source	Ctrl+U
Inspect	Ctrl+Shift+I

Google Search   I'm Feeling Lucky

Right click on the page and select "Inspect" to open up the inspect tool page

myGuide

Step: 02

Select "Console"

myGuide

Step: 03
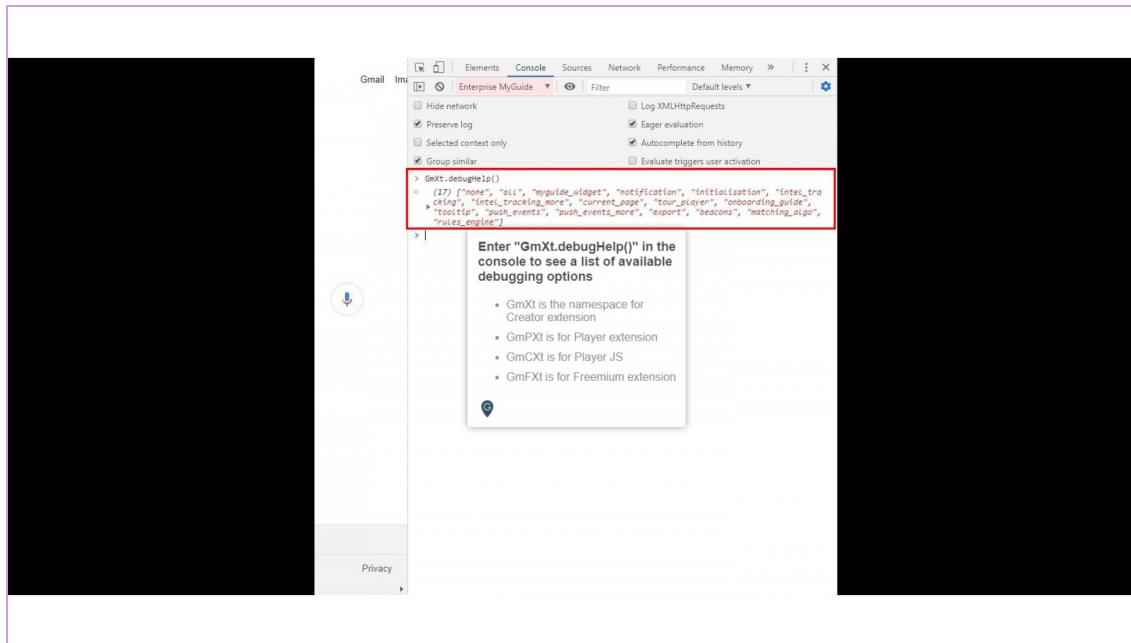

Select "Enterprise MyGuide" from top

Enter "GmXt.debugHelp()" in the console to see a list of available debugging options

1) GmXt is the namespace for Creator extension 2) GmPXt is for Player extension 3) GmCXt is for Player JS 4) GmFXt is for Freemium extension
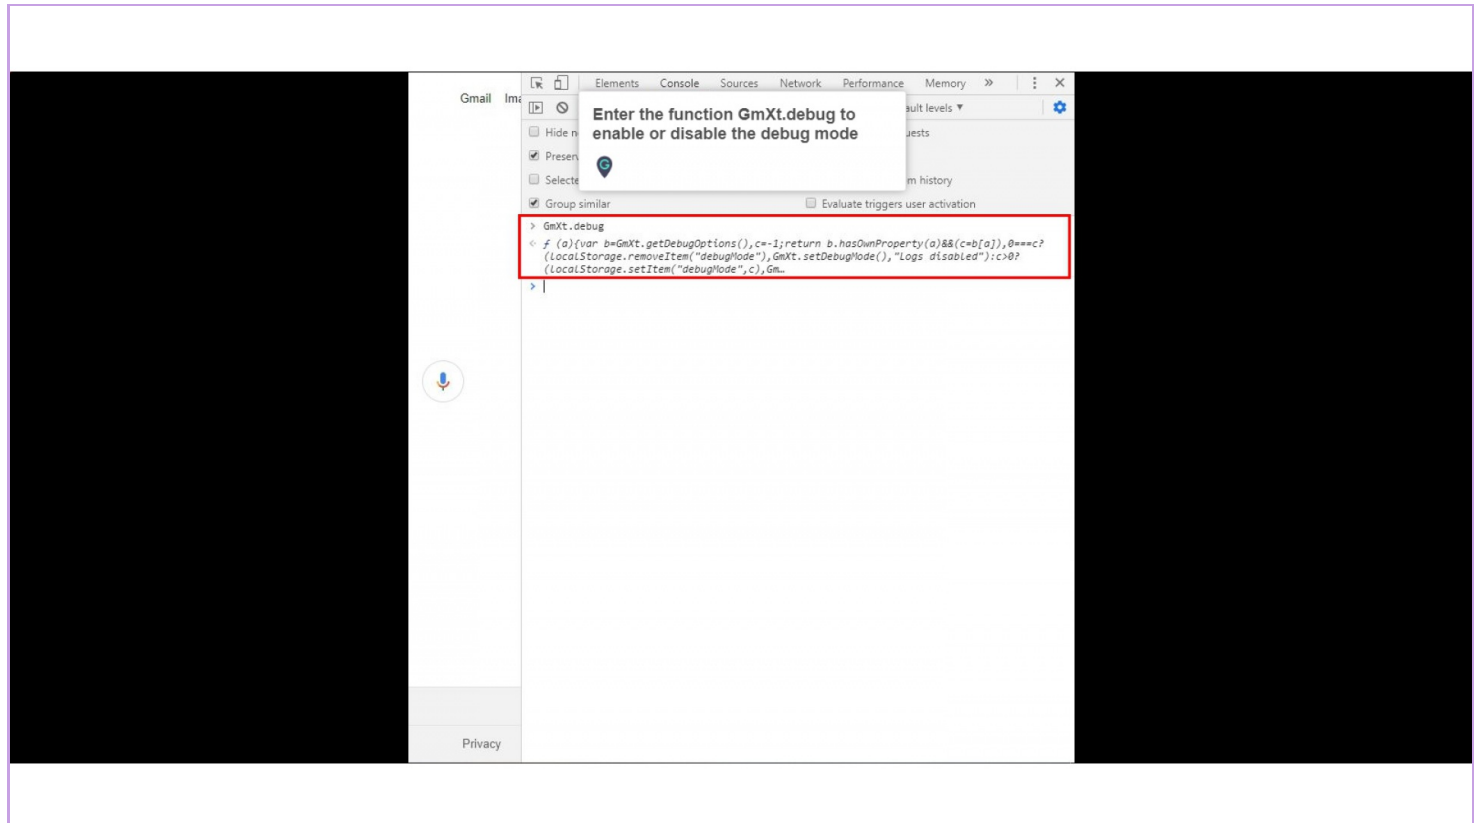

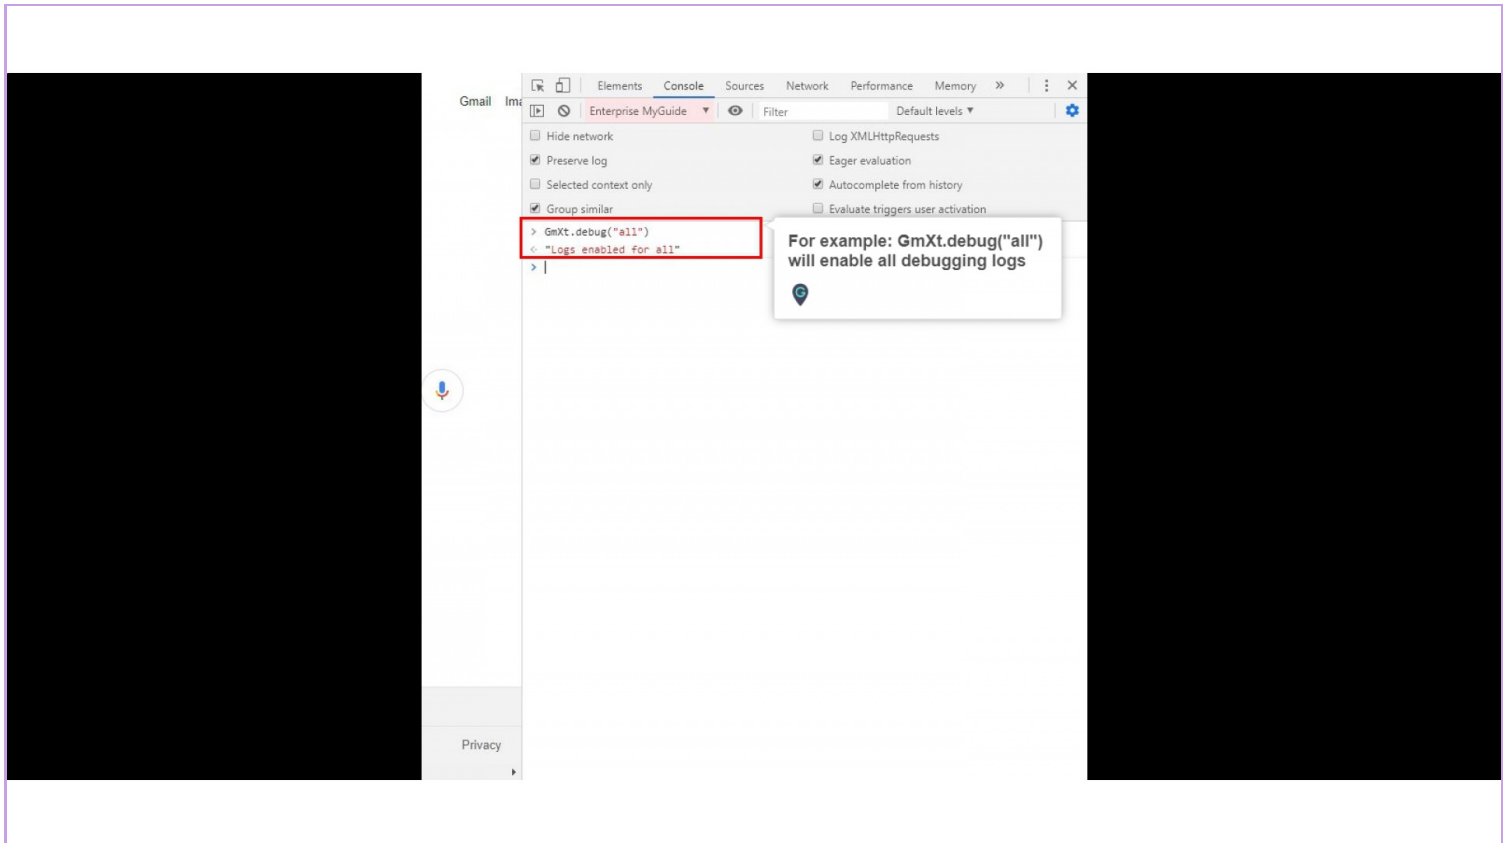

Step: 05

This is our debugging feature list

Step: 06

Enter the function GmXt.debug to enable or disable the debug mode

my Guide

Step: 07

For example: GmXt.debug("all") will enable all debugging logs

Step: 08

For log results, refresh the page and perform an action. The logs will be displayed in console
