

How does a user see the Task List

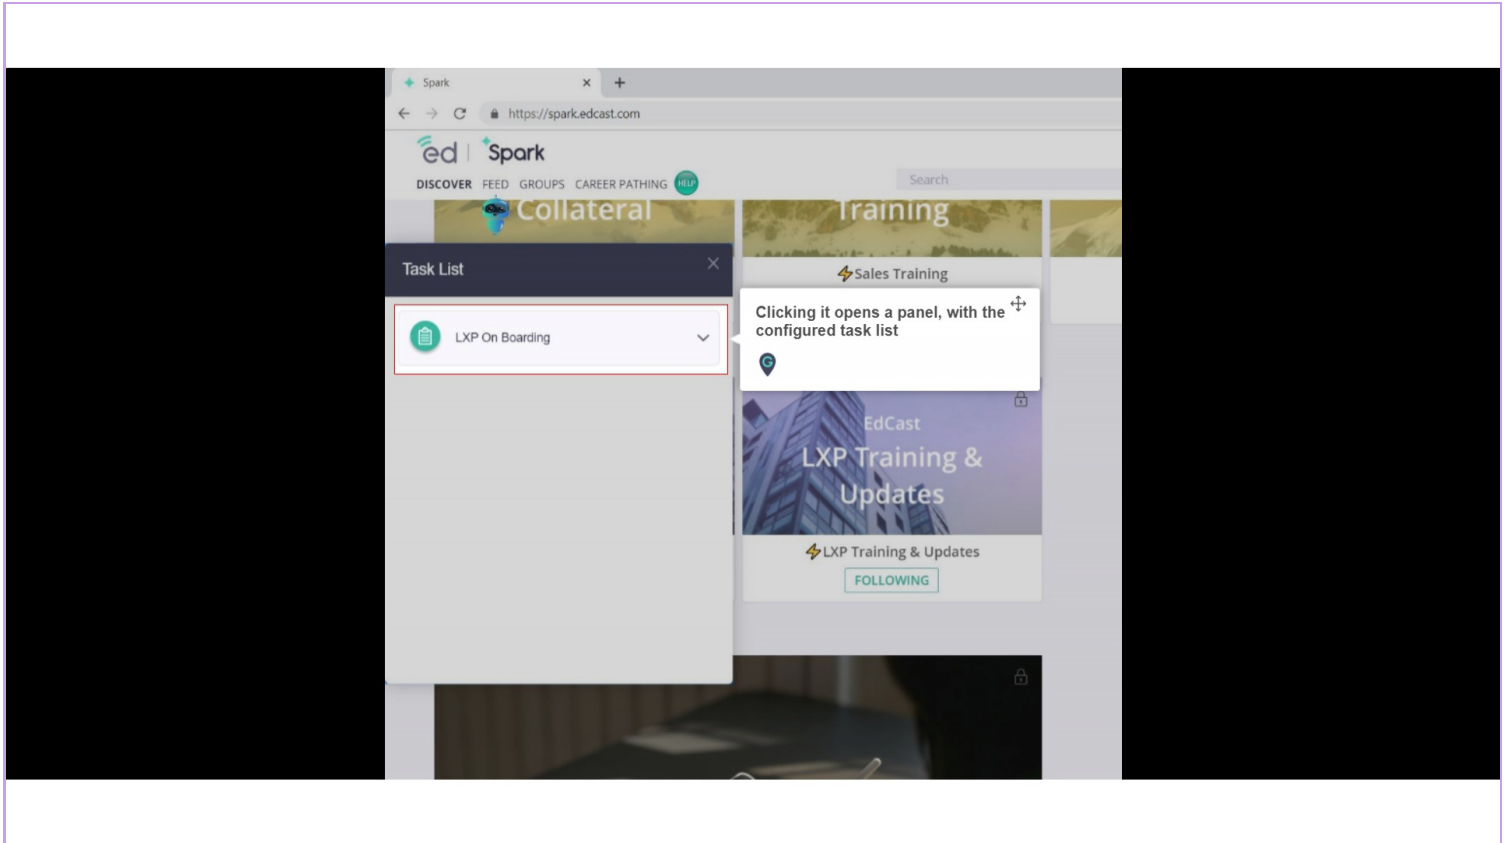

Step: 01

- 1) When the user opens the URL which has been set from the Admin panel
- 2) The Task List widget is visible in the lower left side of the browser window

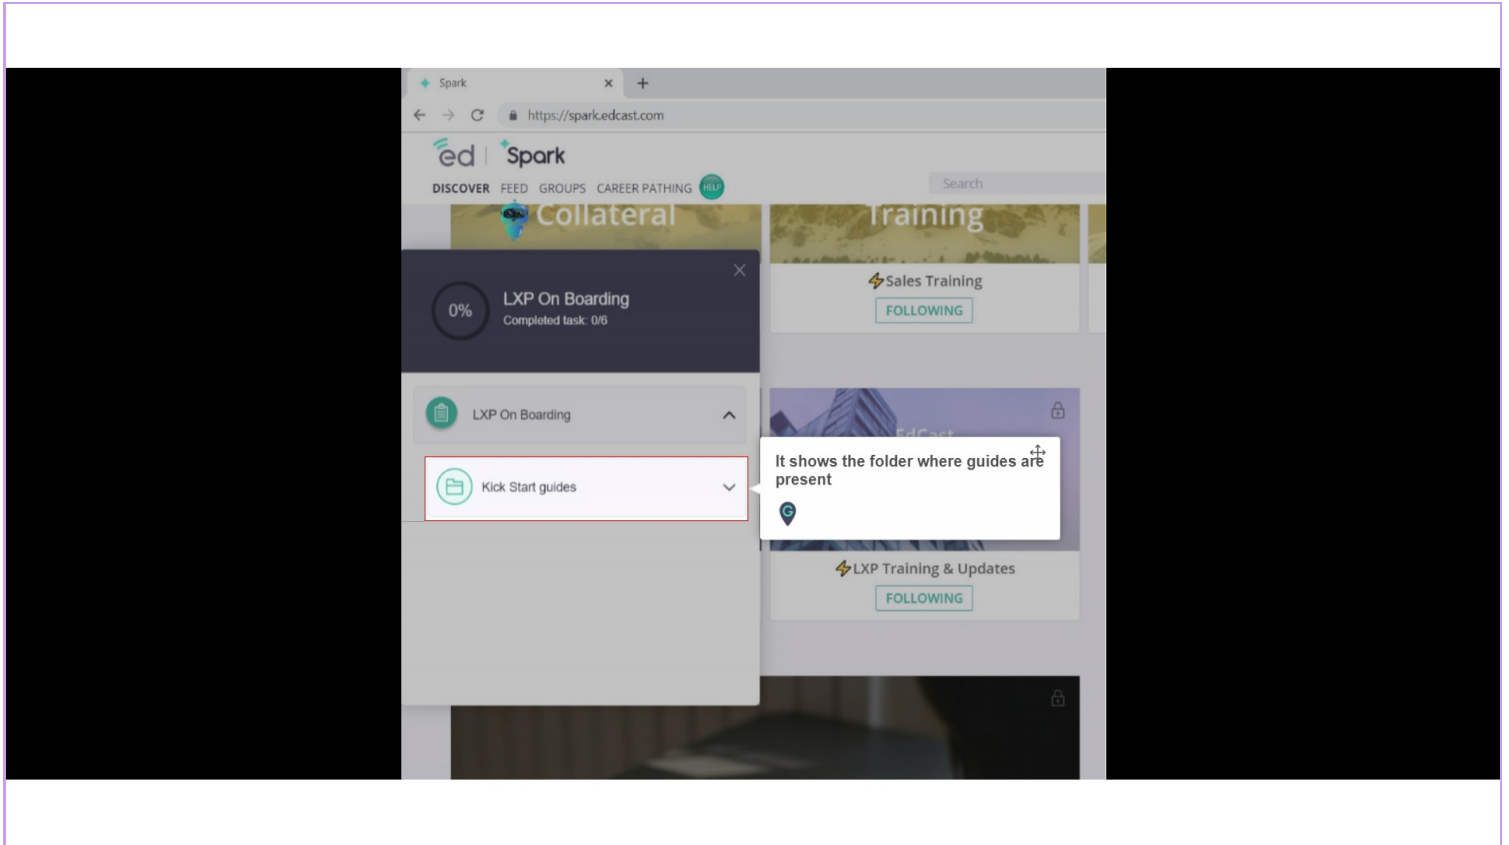

Step: 02

1) Clicking it opens a panel, with the configured task list

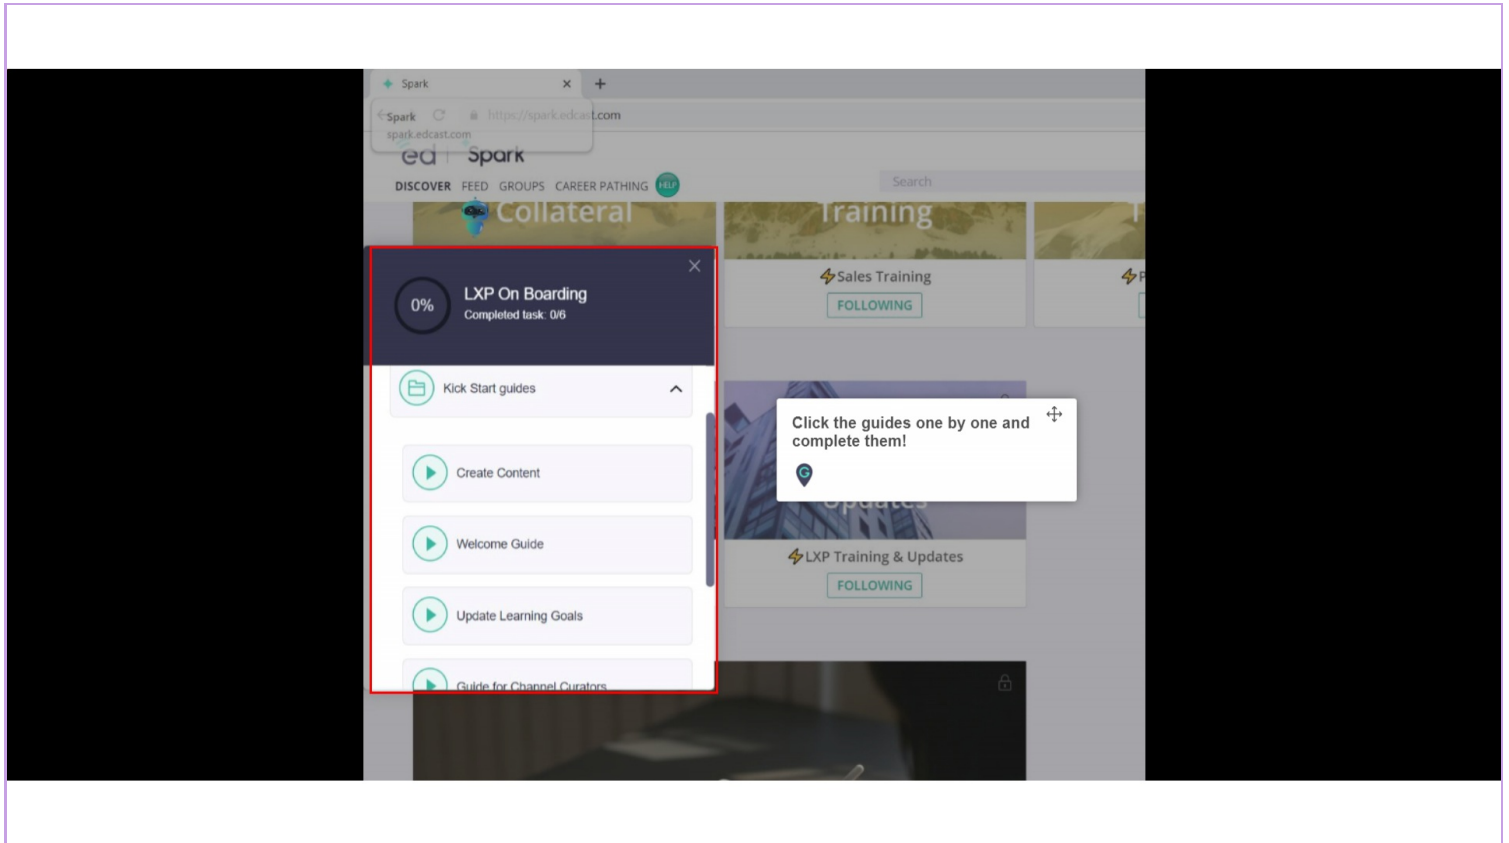

Step: 03

1) It shows the folder where guides are present

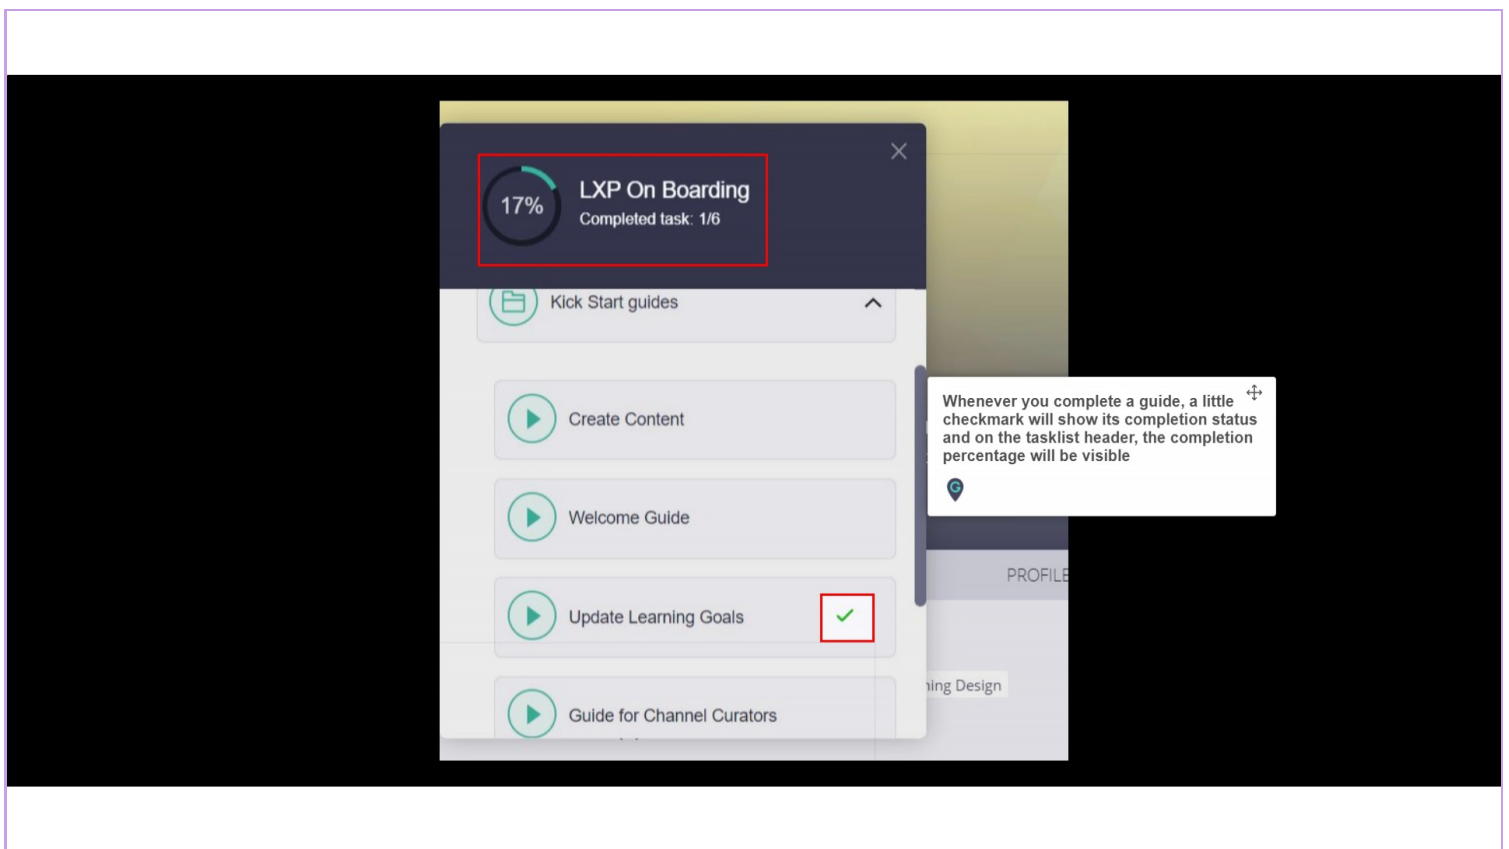

Step: 04

Click the guides one by one and complete them!

Step: 05

Whenever you complete a guide, a little checkmark will show its completion status and on the tasklist header, the completion percentage will be visible

Thank you
