

How to add registered domains for your org

myguide.org

Enter your credentials and check the captcha

And then log into the MyGuide admin portal

Click on "Domains"

This feature supports Single Sign-On functionality on the general MyGuide player extension. And due this feature in existance, creating a dedicated extension will not be required if the customers want SSO. If they need additional branding, existing dedicated custom extensions will remain supported. Users can log in through SSO only when they are on the domain registered for their MyGuide account. This domain will be unique to every MyGuide account. If the domain is not registered, users will not be able to log into their Identity Provider's URL. There can be more than one registered domain.
