myGuide

How to Clear the History of Snoozed Notifications
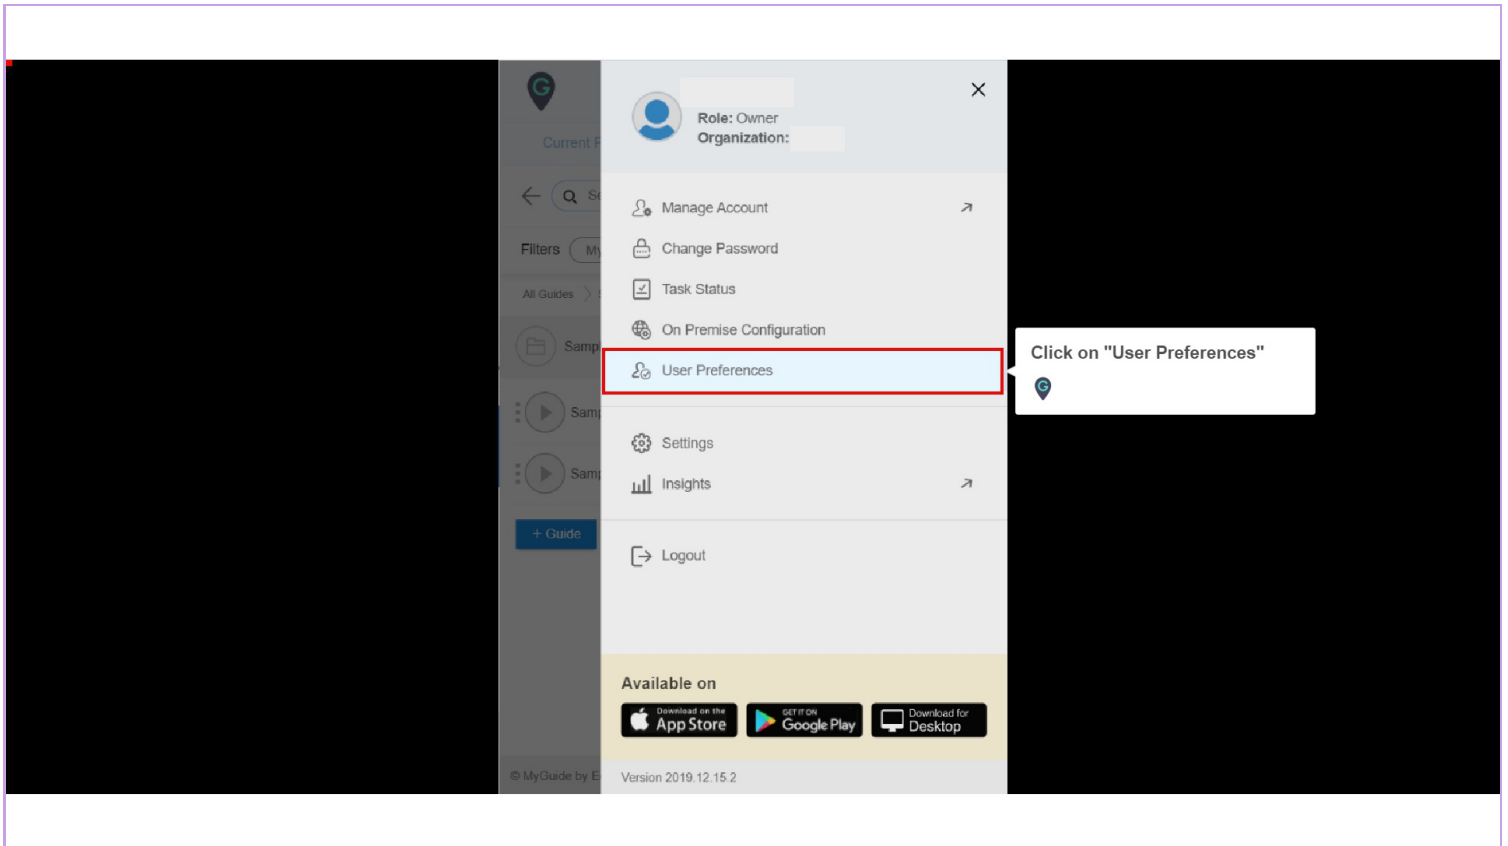

Click on "Navigation Menu" icon

Click on "Navigation Menu" icon
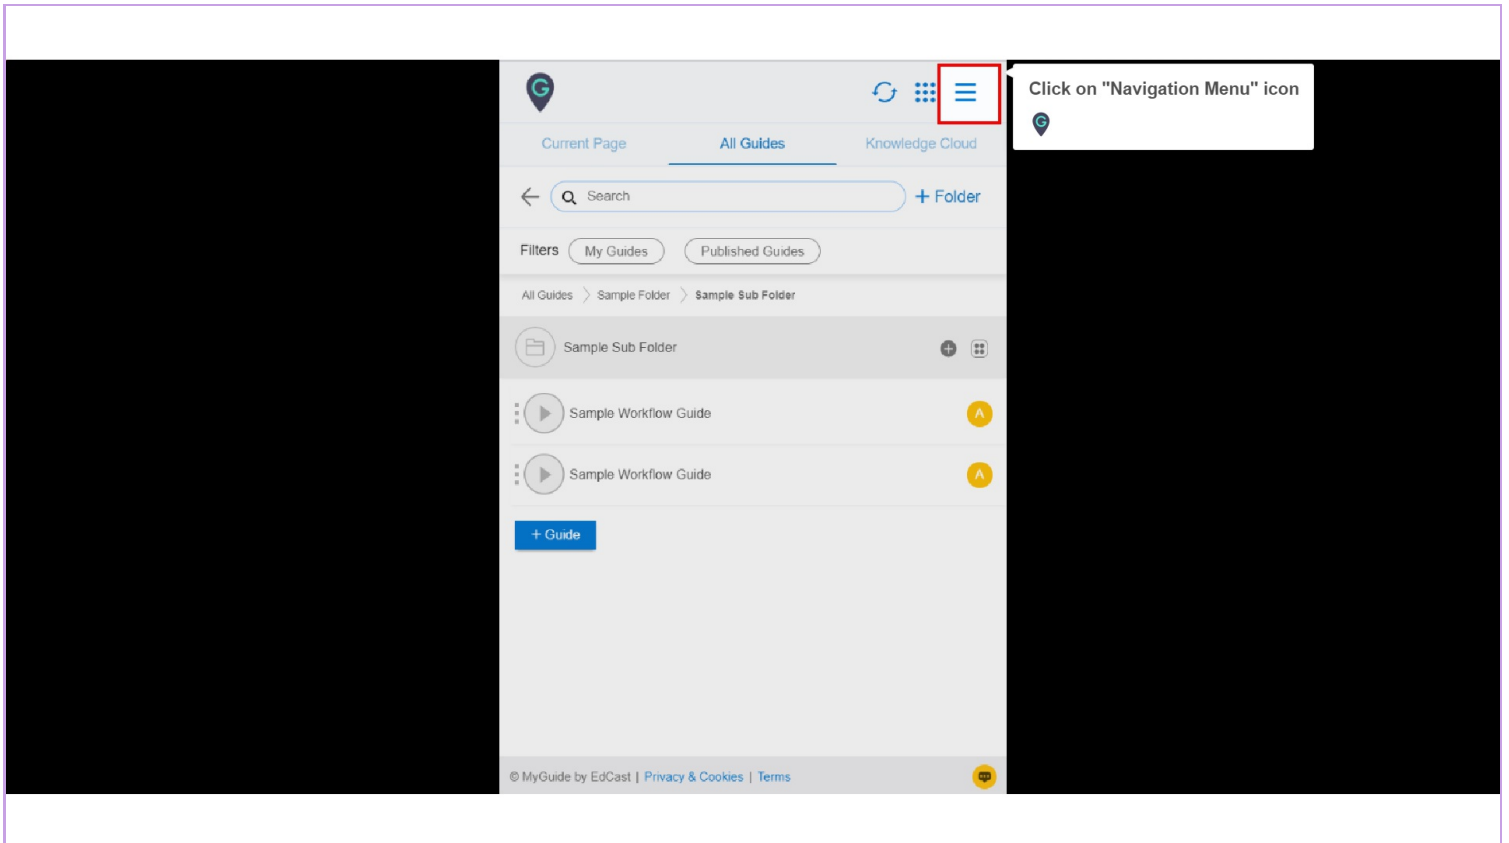

Step: 02

Click on "User Preferences"

Click on "User Preferences"

myGuide

Step: 03

Select the check box available next to "snoozed notifications"

Step: 04
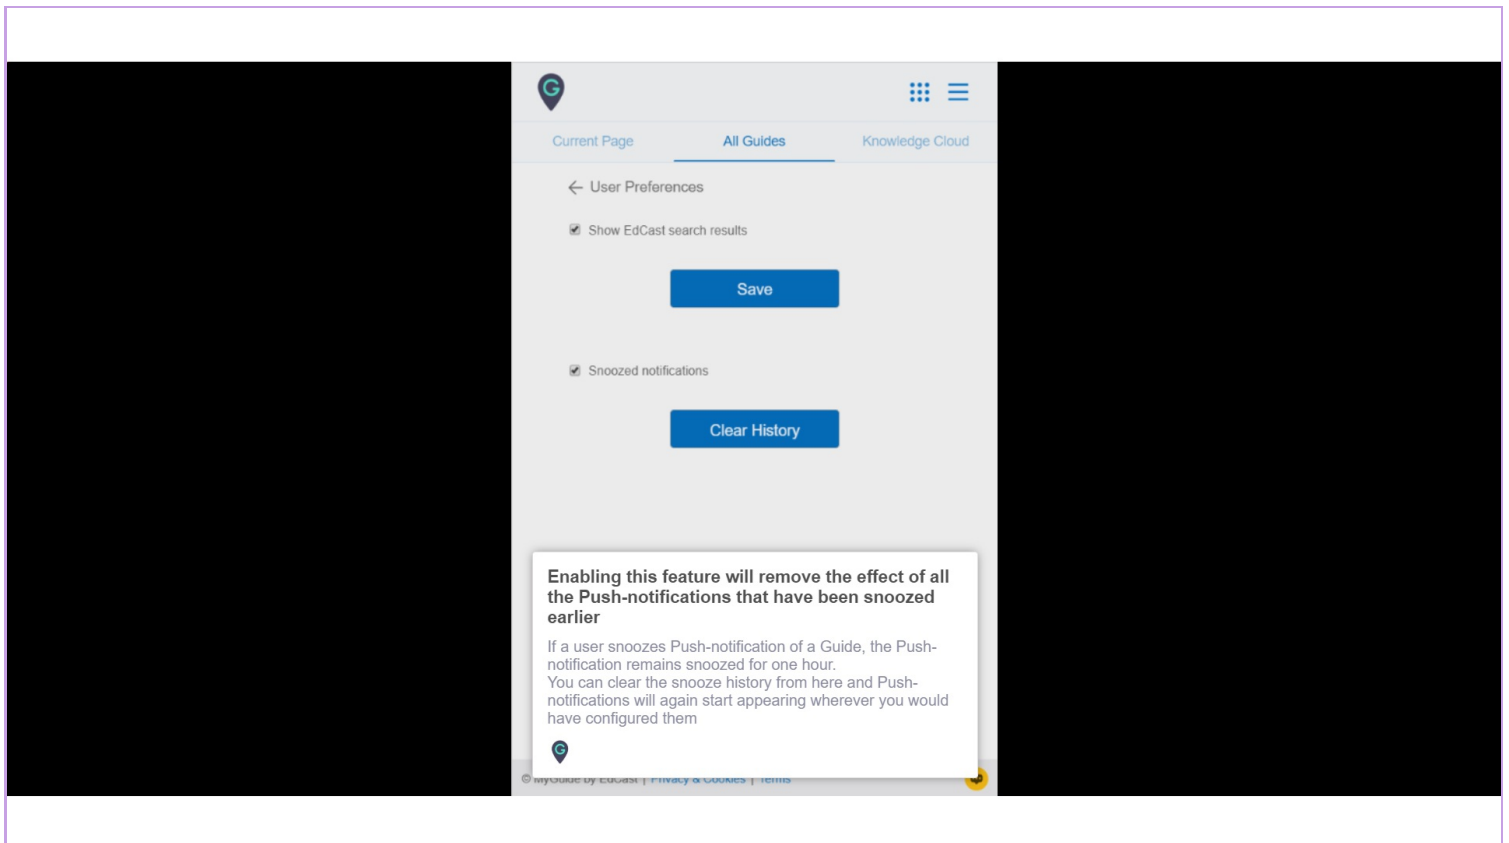

Click on "Clear History"

Enabling this feature will remove the effect of all the Push-notifications that have been snoozed earlier

If a user snoozes Push-notification of a Guide, the Push-notification remains snoozed for one hour. You can clear the snooze history from here and Push-notifications will again start appearing wherever you would have configured them

Thank You!
