Make sure to publish the Folder and Sub Folder too

Click on "Ok"

Step: 14

After you reload the page you will see the duct tape in action.

Click on it to view the alert message

Step: 15

This is how the message appears, click "Ok" and note that after the popup disappears the area hidden under the duct tape will start showing
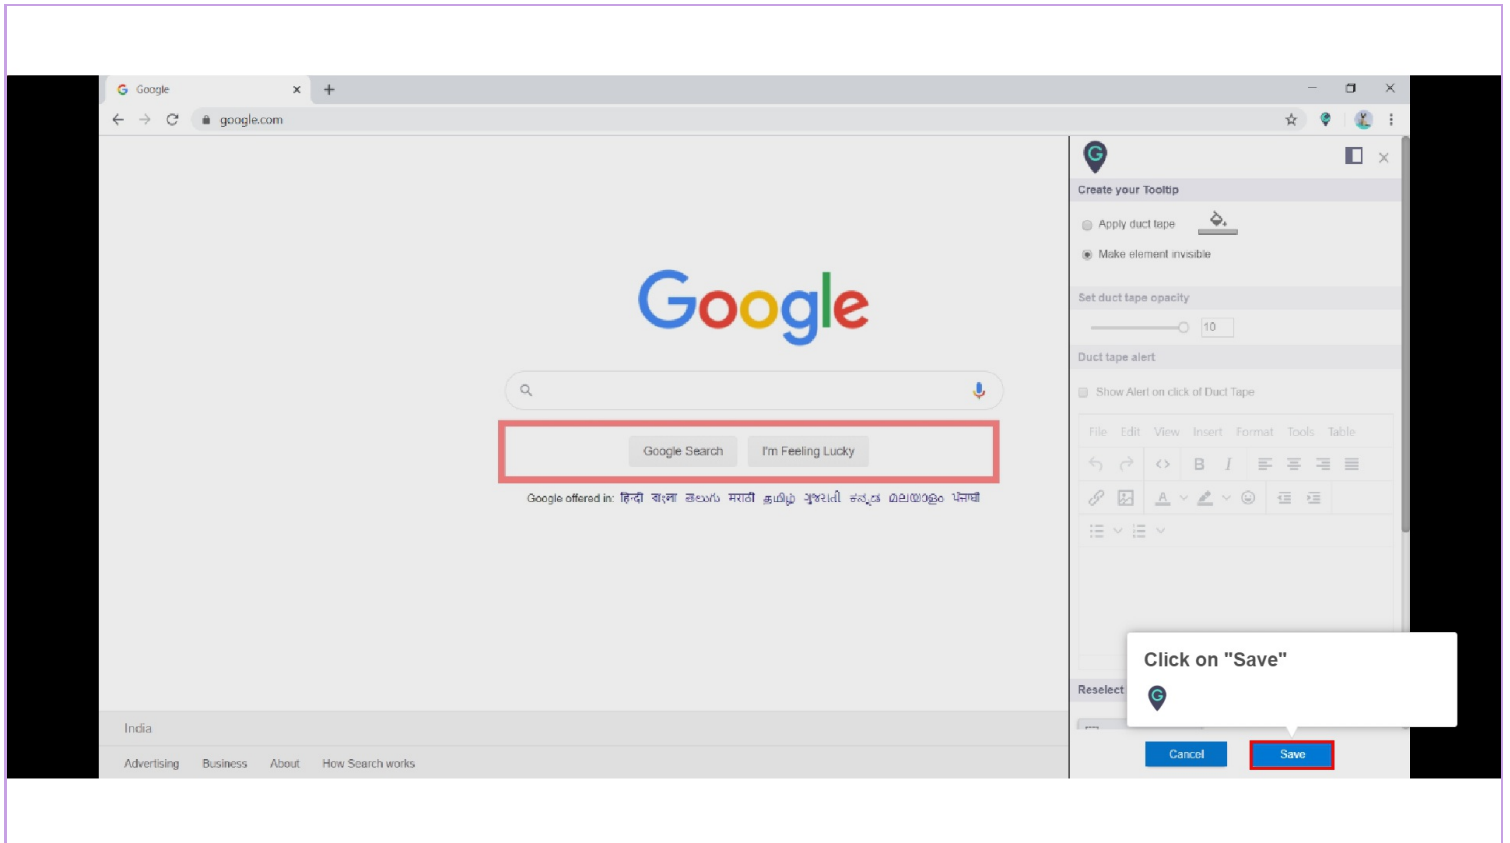

Similarly, you can also hide the area by making it transparent. For that, you need to select the radio button next to the option "Make element invisible"

Also, for this option we don't get the alert checkbox
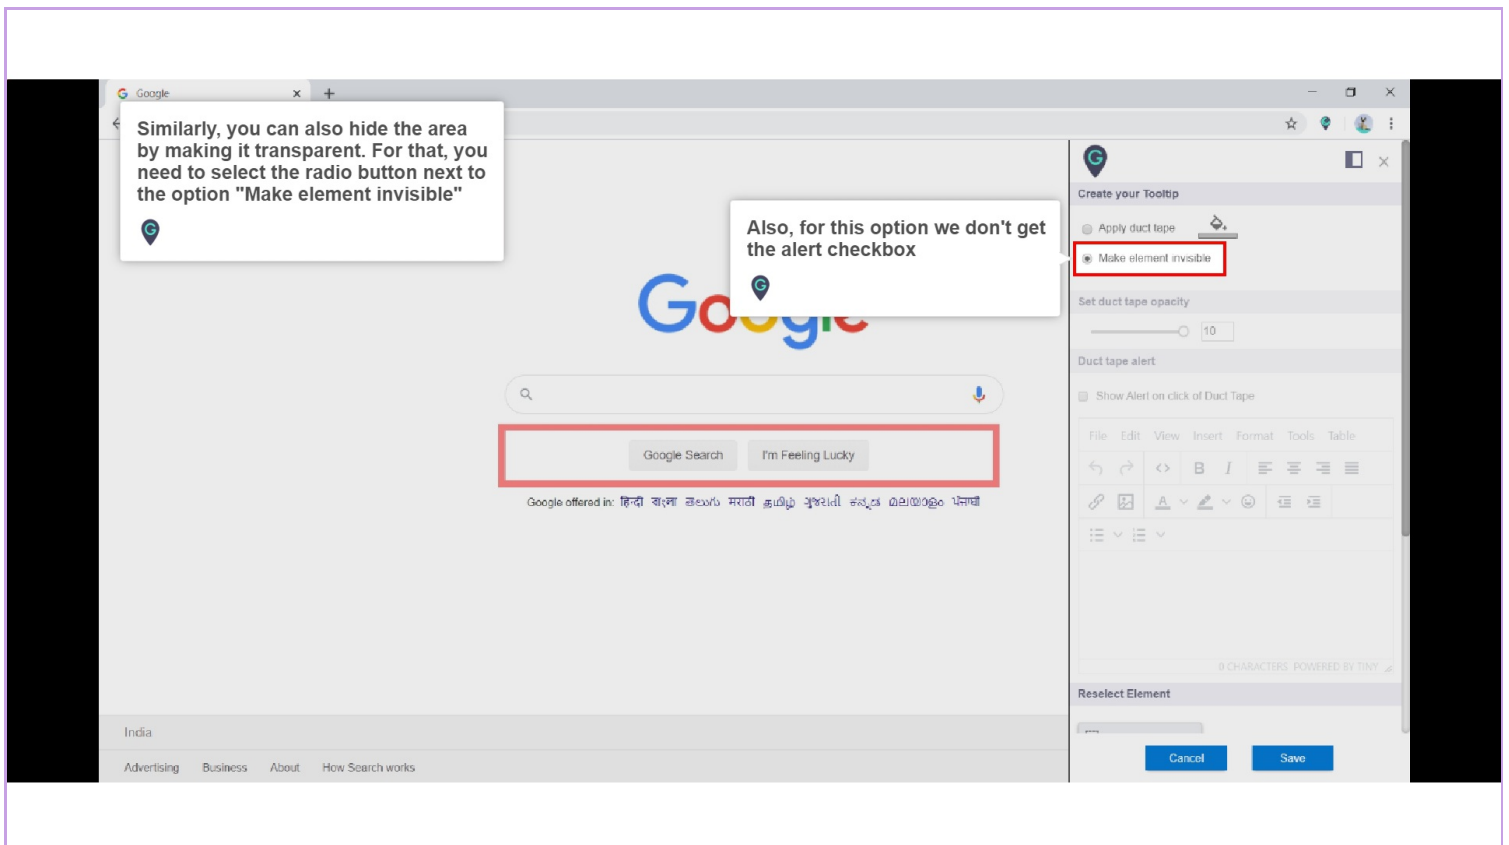

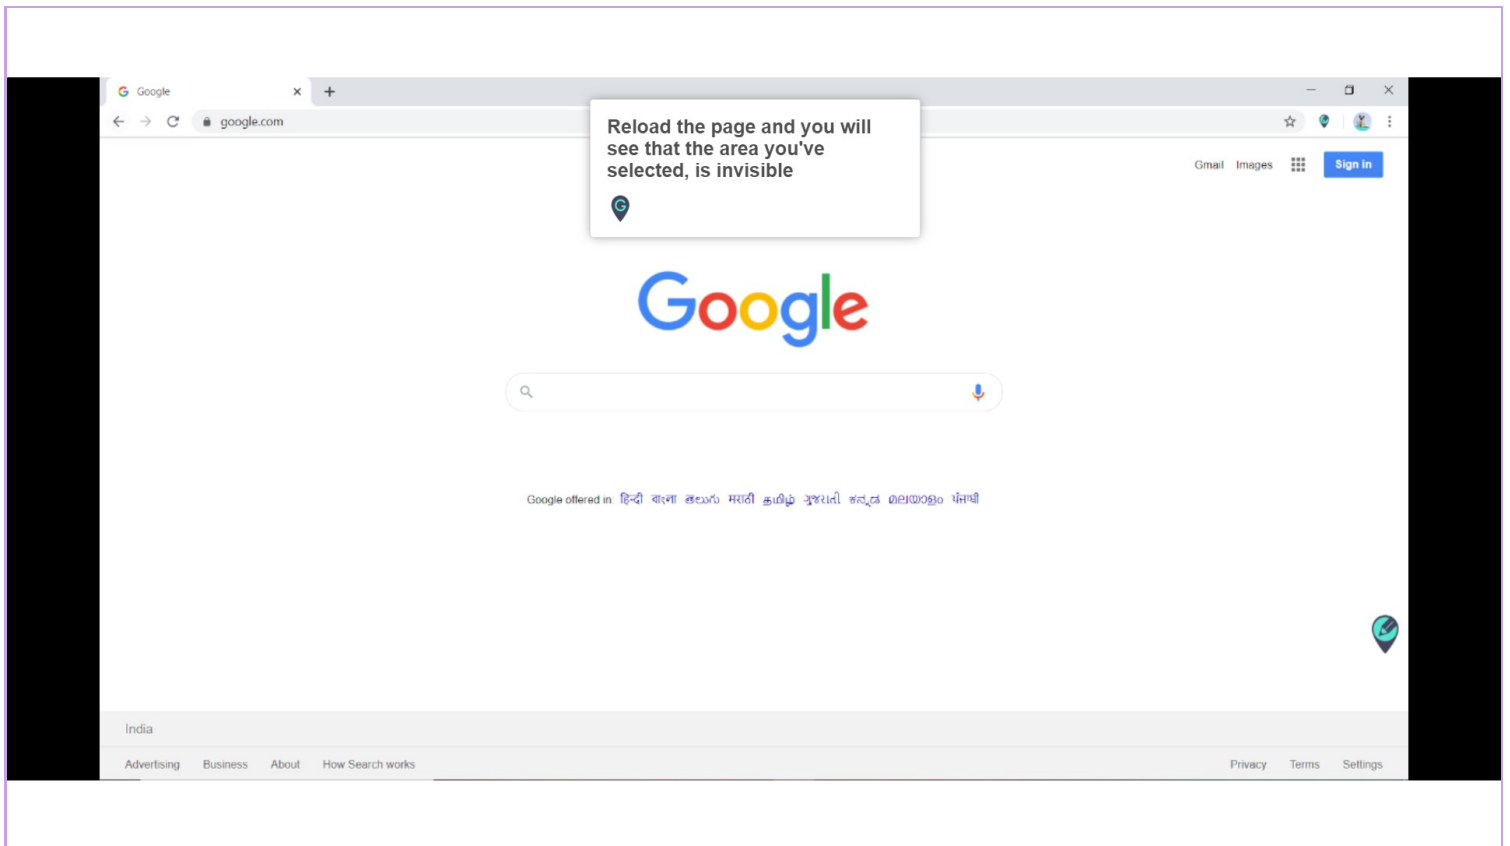

Step: 17

Click on "Save"
