

How to Send One Time Notification

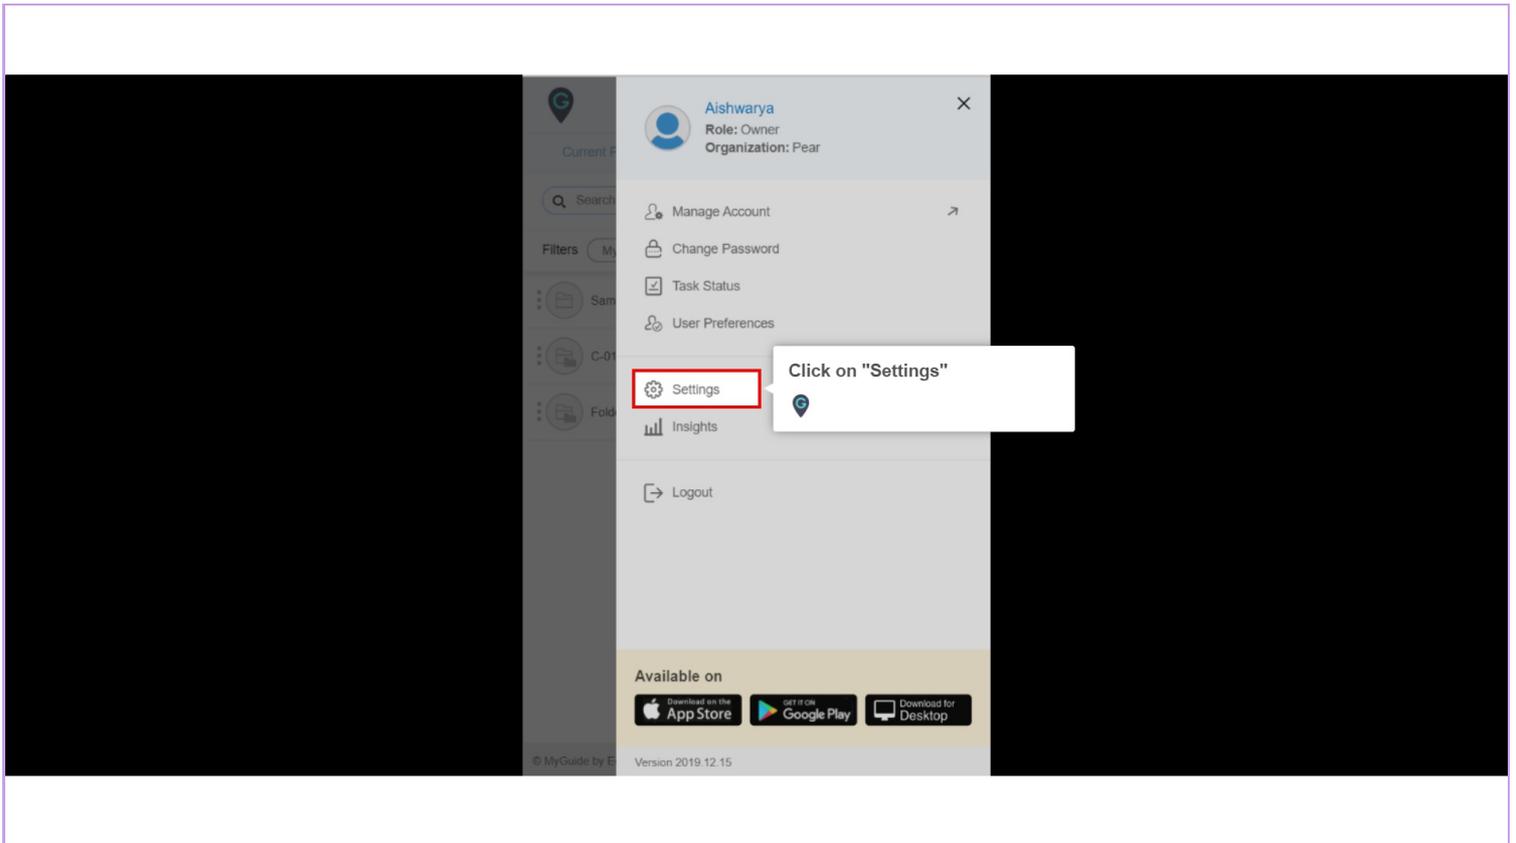

Step: 01

Click on the "Navigation Menu"

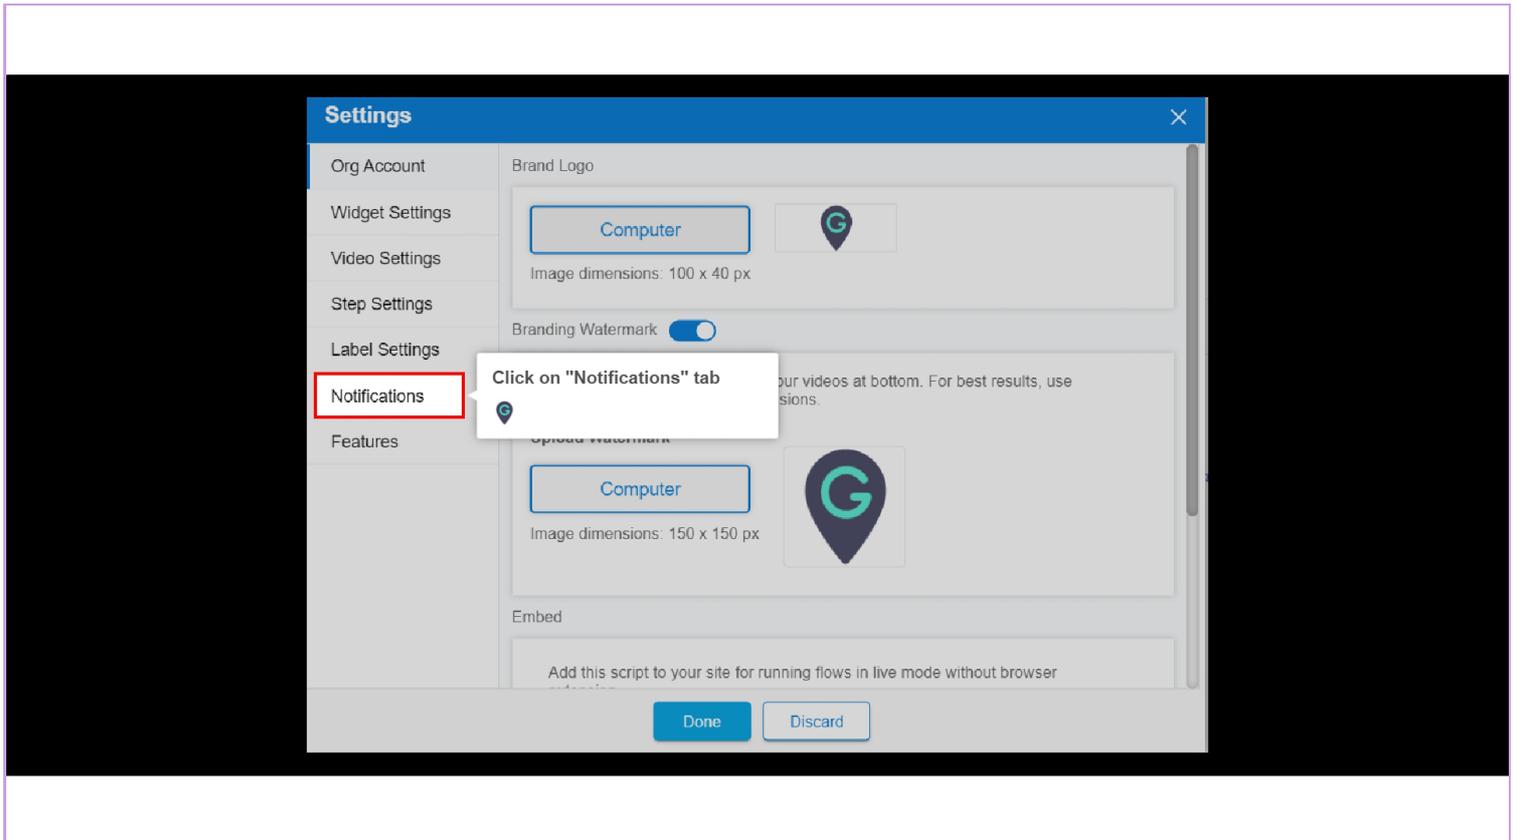

Step: 02

Click on "Settings"

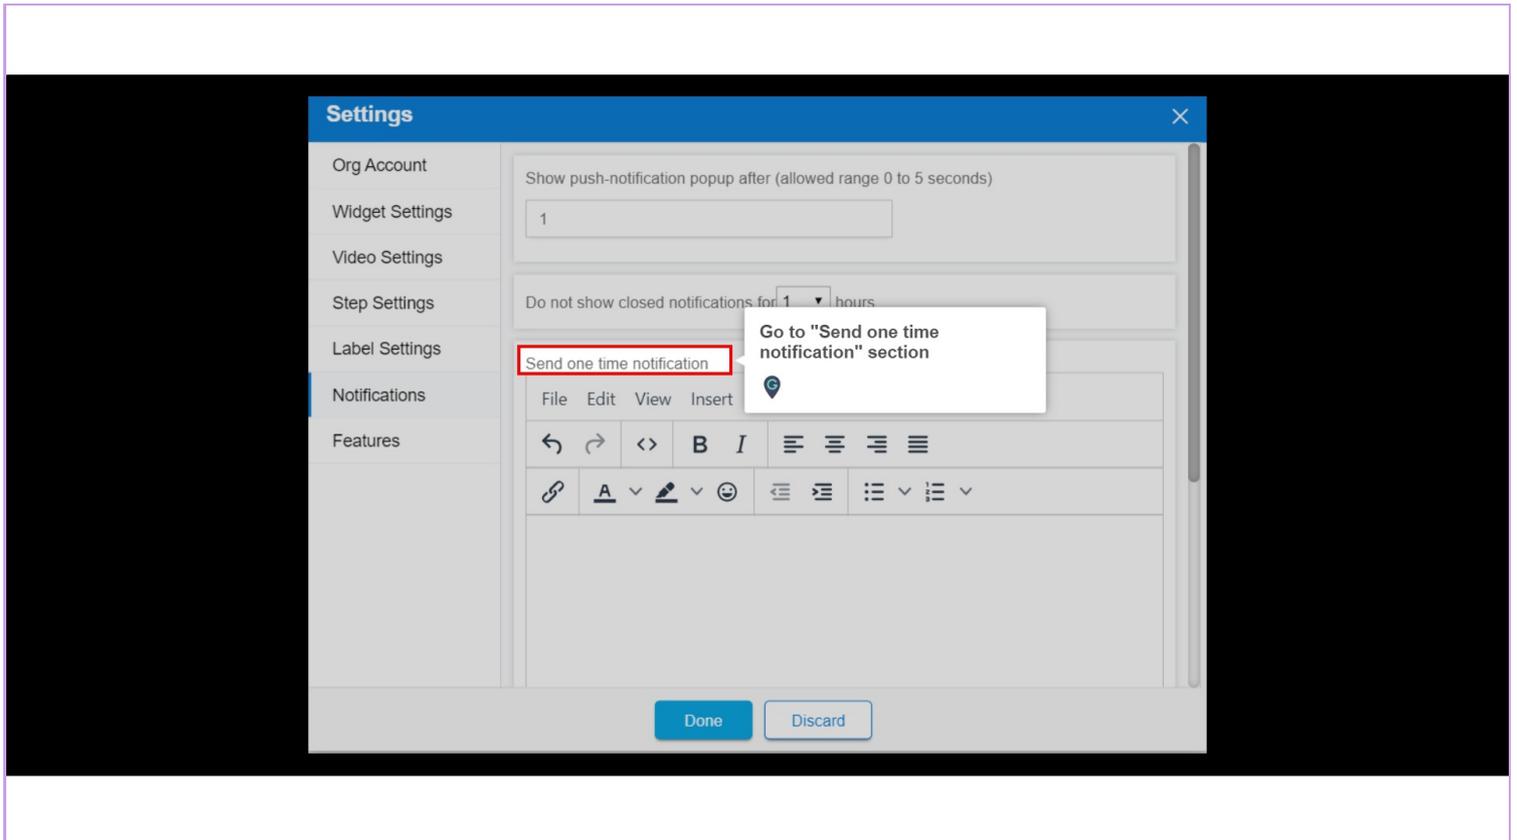

Step: 03

Click on "Notifications" tab

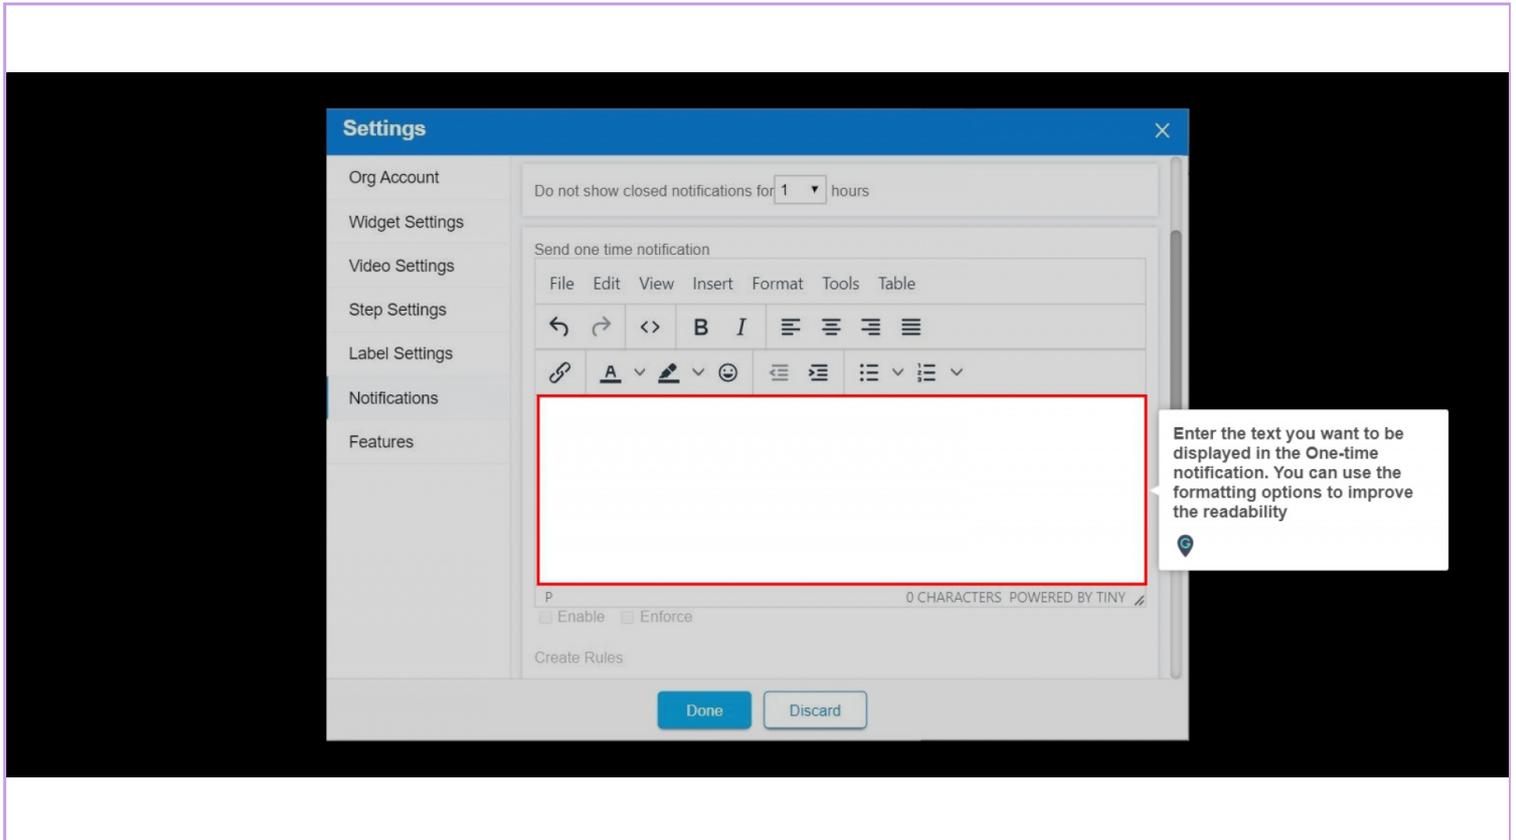

Step: 04

Go to "Send one time notification" section

Step: 05

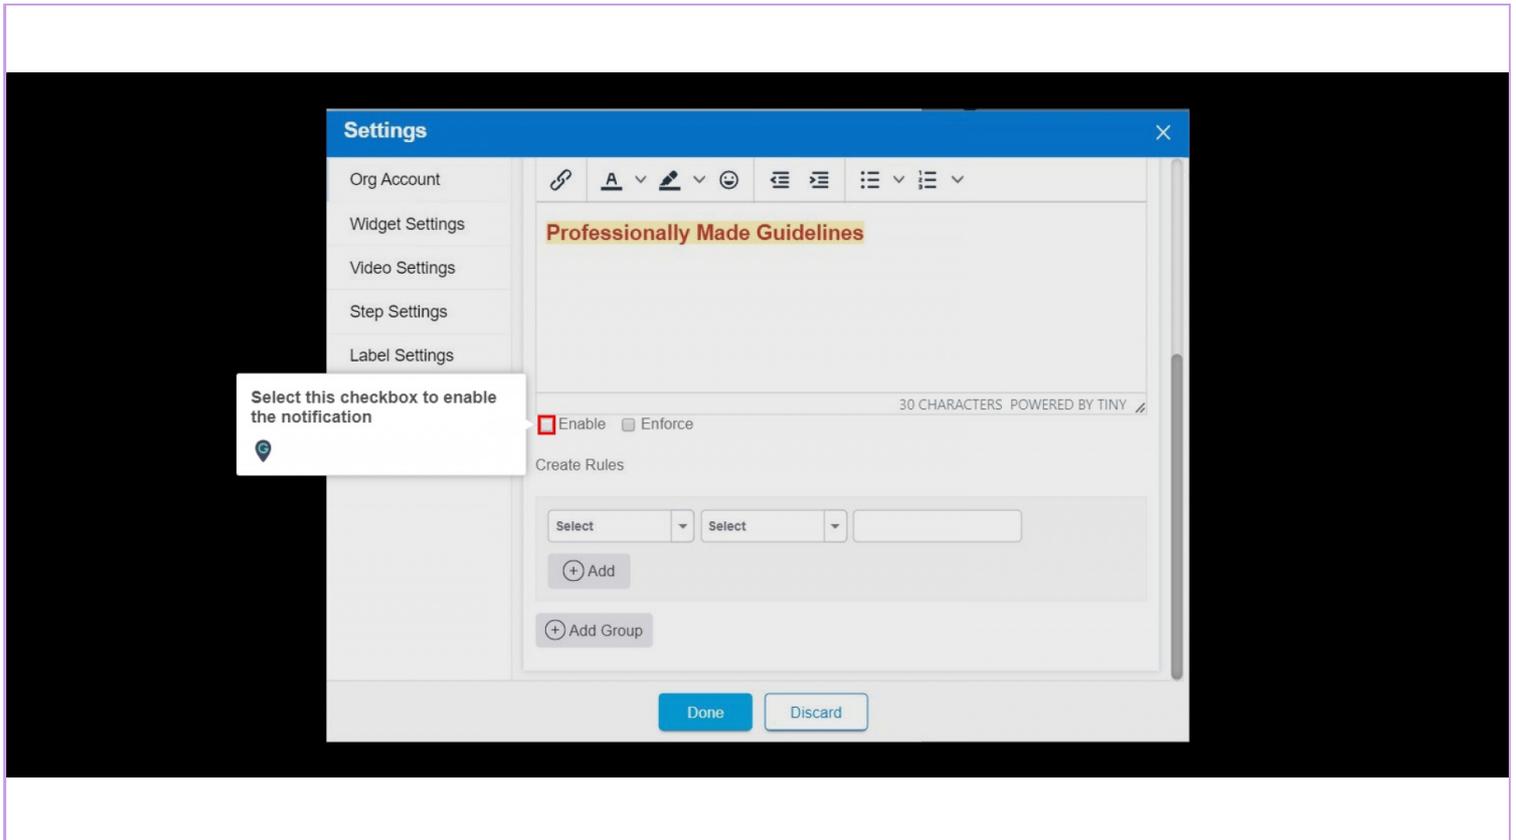

Enter the text you want to be displayed in the One-time notification. You can use the formatting options to improve the readability

The screenshot shows a 'Settings' dialog box with a sidebar on the left containing categories: Org Account, Widget Settings, Video Settings, Step Settings, Label Settings, Notifications, and Features. The 'Notifications' section is active. At the top, it says 'Do not show closed notifications for 1 hours'. Below that, the 'Send one time notification' section features a rich text editor with a menu (File, Edit, View, Insert, Format, Tools, Table) and various formatting icons. A red rectangular box highlights the empty text input area. A white callout box with a blue location pin icon points to this area, containing the text: 'Enter the text you want to be displayed in the One-time notification. You can use the formatting options to improve the readability'. At the bottom of the dialog, there are 'Done' and 'Discard' buttons.

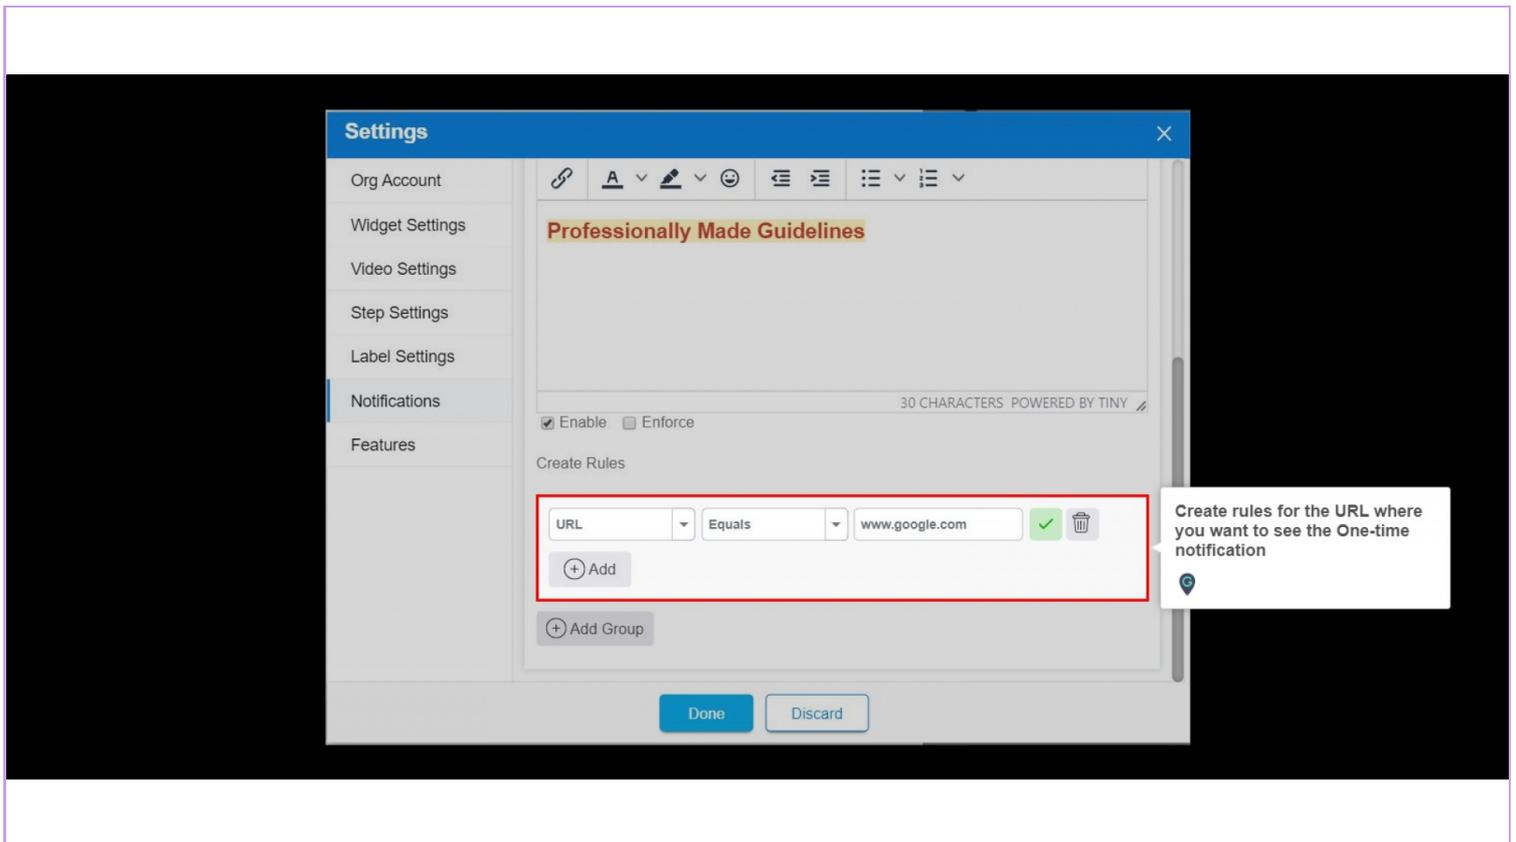

Step: 06

Select this checkbox to enable the notification

Step: 07

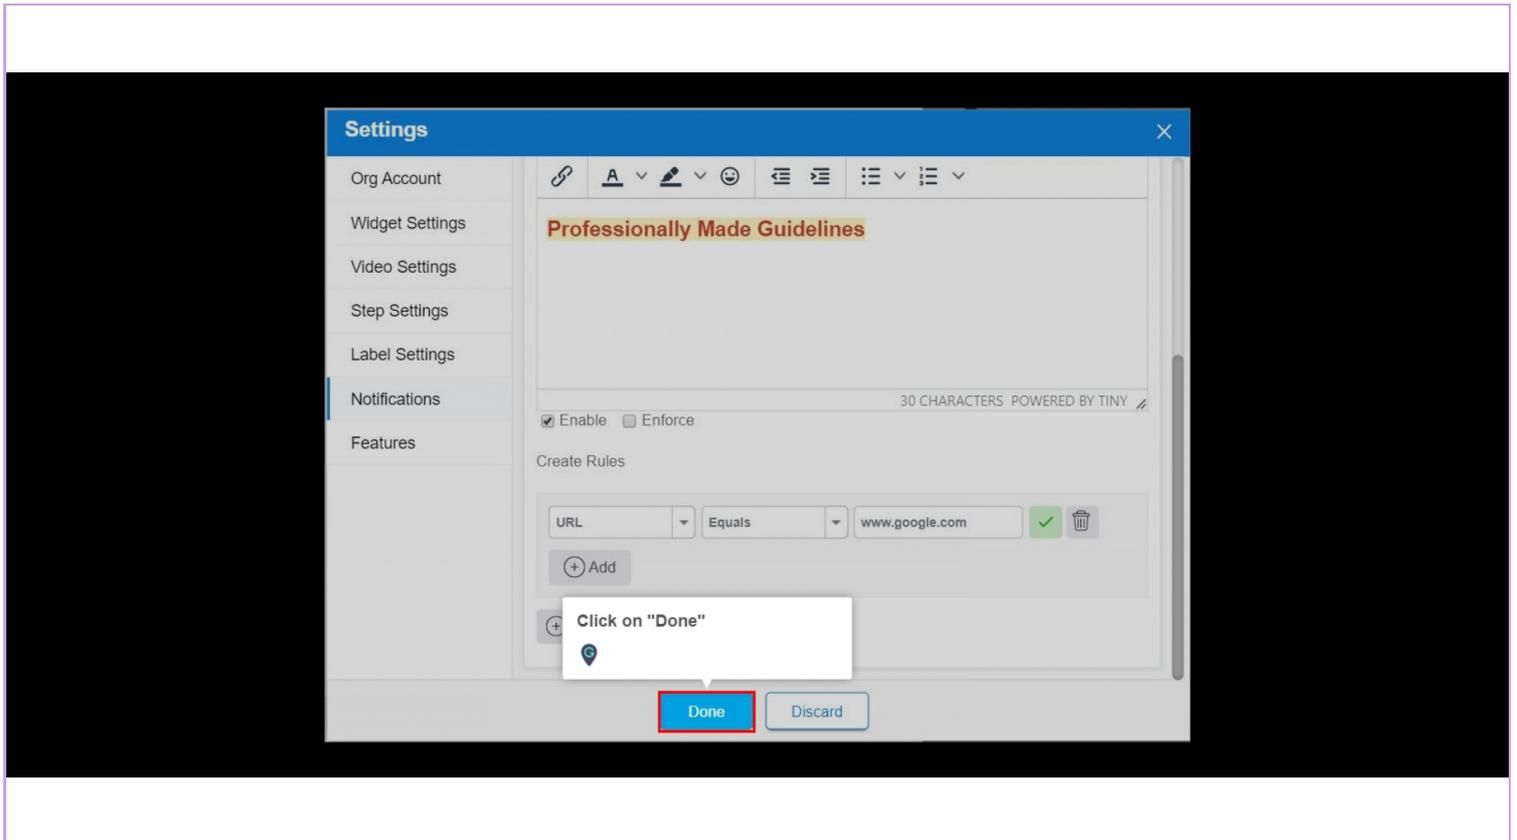

Create rules for the URL where you want to see the One-time notification

The screenshot shows a 'Settings' dialog box with a sidebar on the left containing options like 'Org Account', 'Widget Settings', 'Video Settings', 'Step Settings', 'Label Settings', 'Notifications', and 'Features'. The main area is titled 'Professionally Made Guidelines' and includes a text editor with '30 CHARACTERS POWERED BY TINY'. Below the editor are checkboxes for 'Enable' (checked) and 'Enforce'. The 'Create Rules' section contains a table with one rule: 'URL' (operator) 'Equals' (operator) 'www.google.com' (value). A red box highlights this rule, and a callout box points to it with the text: 'Create rules for the URL where you want to see the One-time notification'. Below the table are '+ Add' and '+ Add Group' buttons. At the bottom of the dialog are 'Done' and 'Discard' buttons.

Step: 08

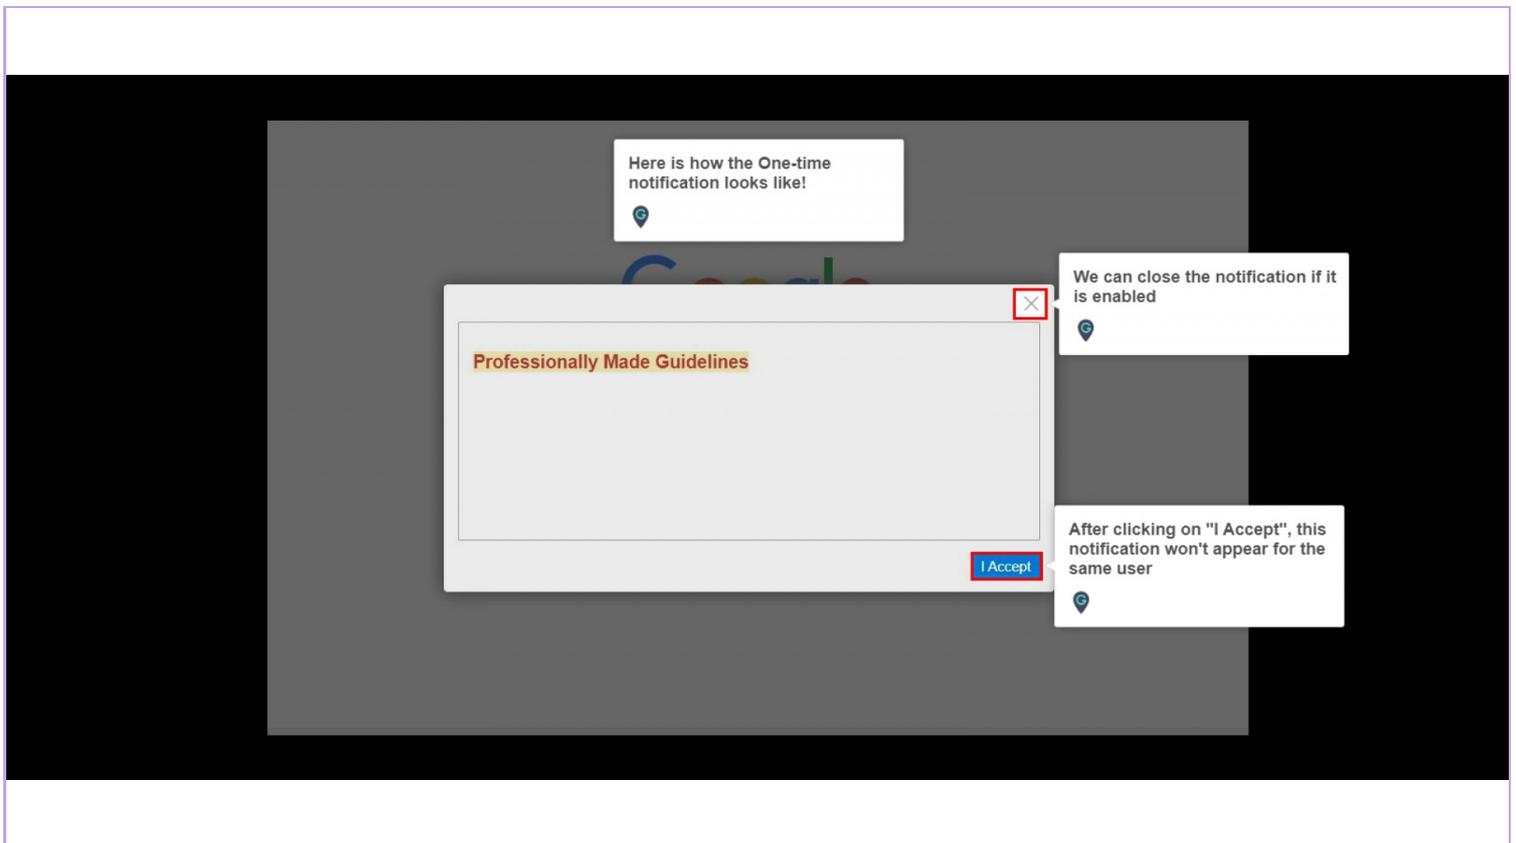

Click on "Done"

Step: 09

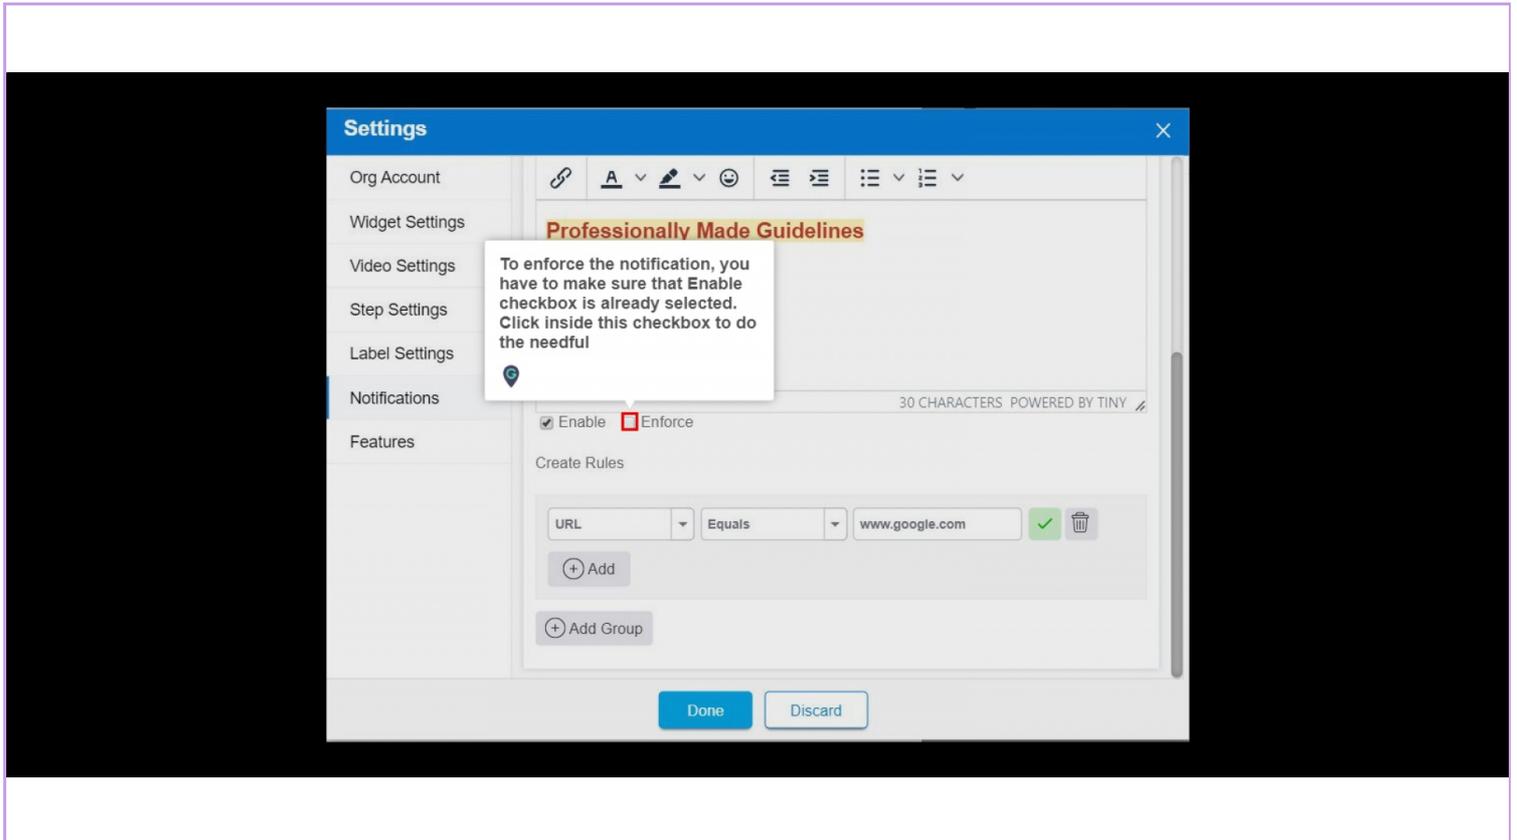

Here is how the One-time notification looks like!

1) We can close the notification if it is enabled 2) After clicking on "I Accept", this notification won't appear for the same user

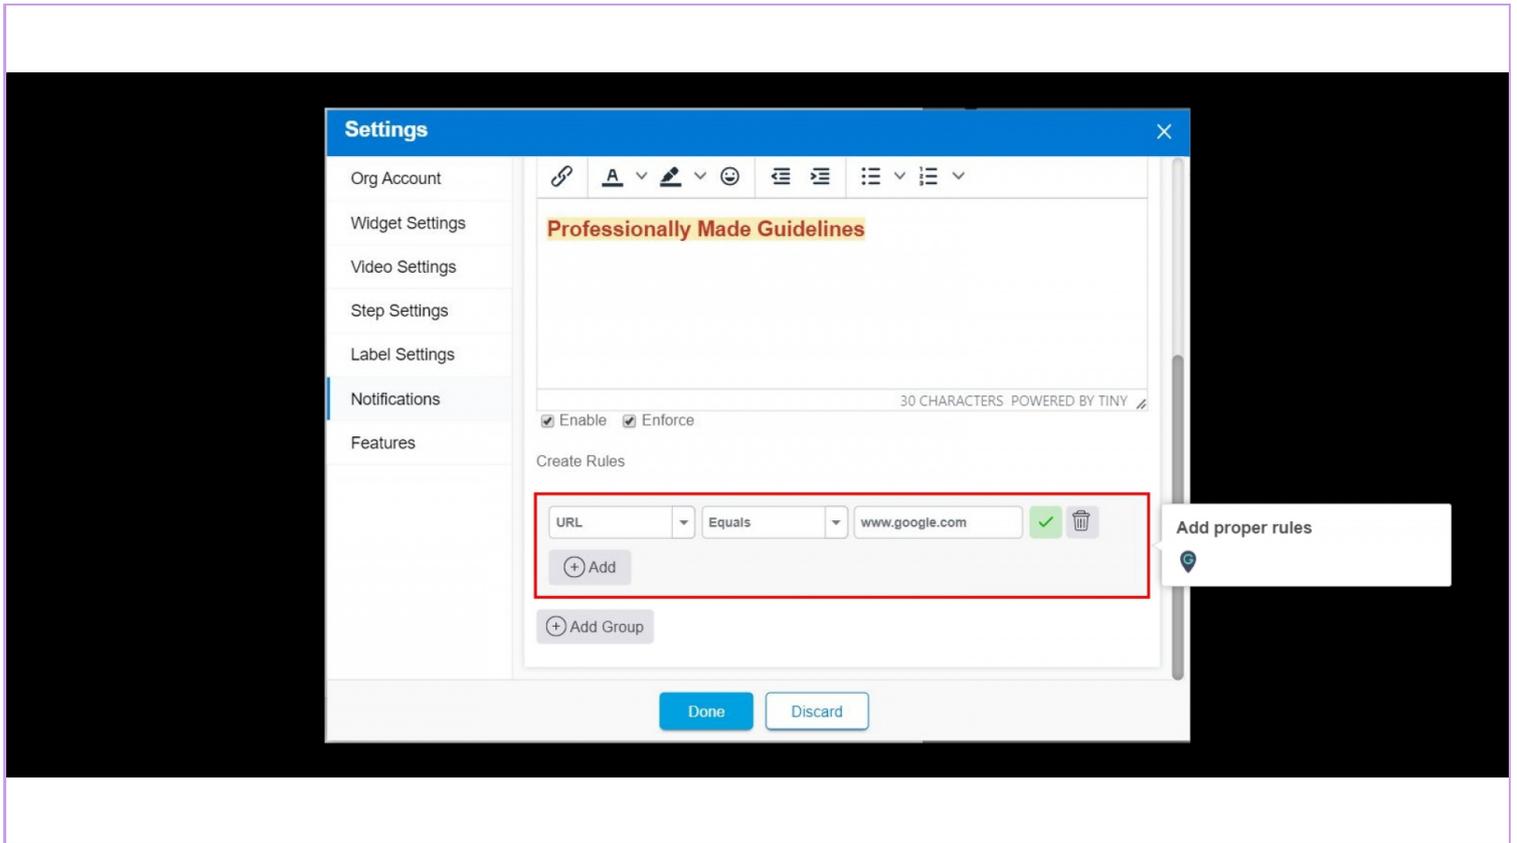

Step: 10

To enforce the notification, you have to make sure that Enable checkbox is already selected. Click inside this checkbox to do the needful

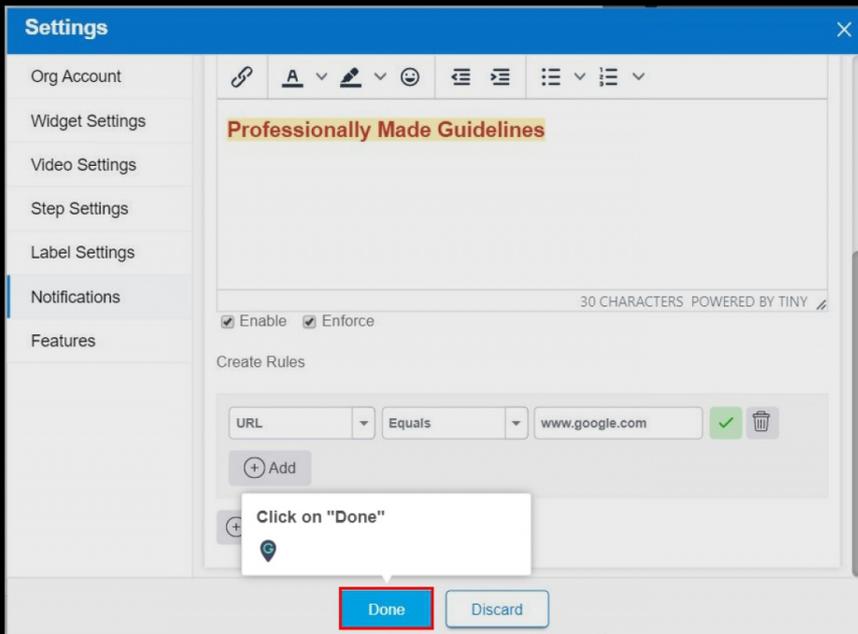

Step: 11

Add proper rules

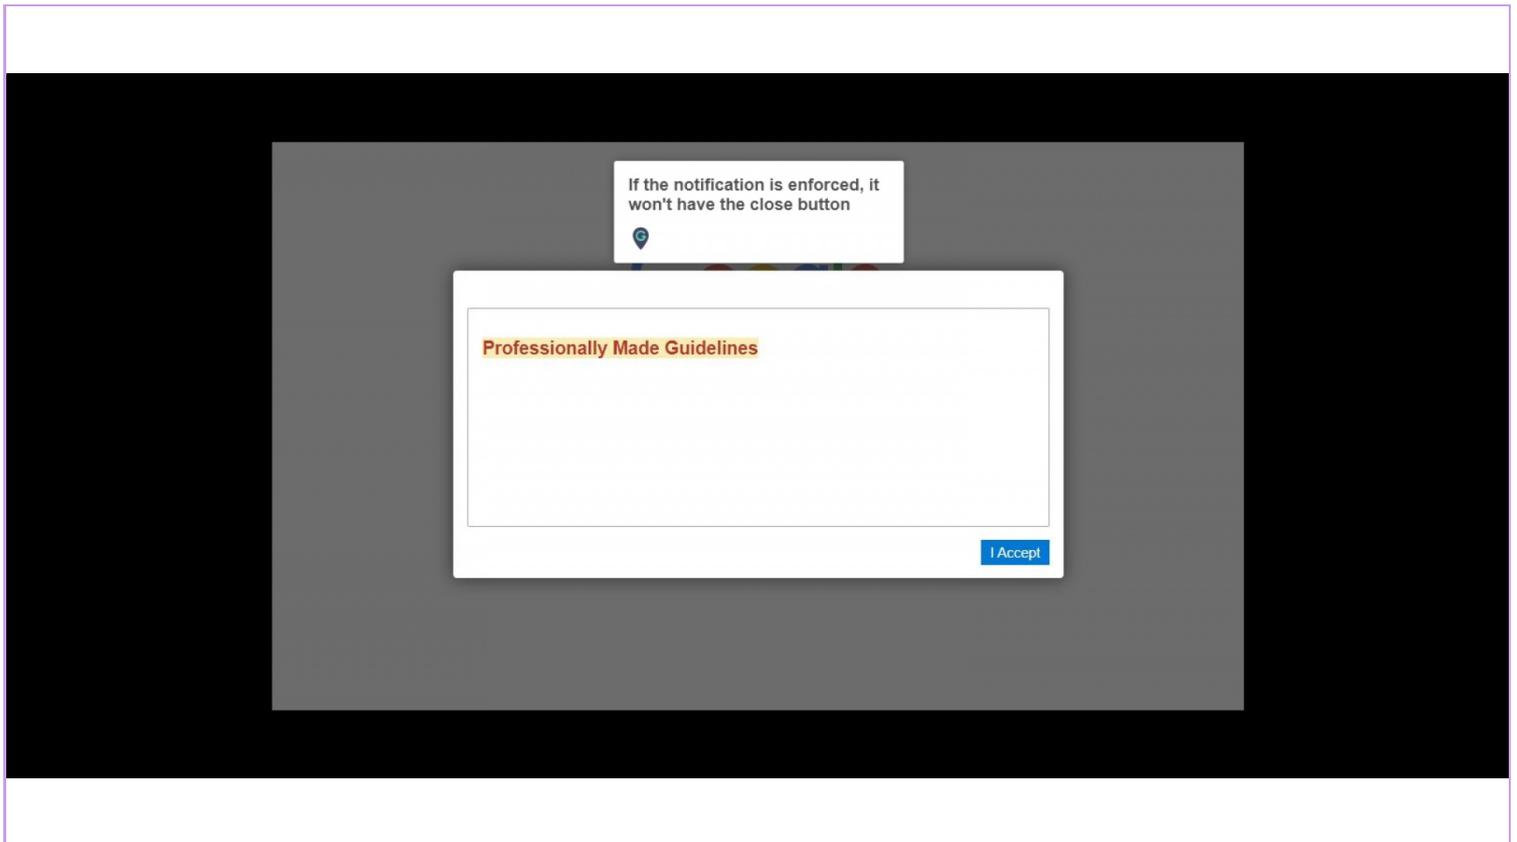

Step: 12

Click on "Done"

Step: 13

If the notification is enforced, it won't have the close button

Thank You!
