

How to Set a Position of a Step Element

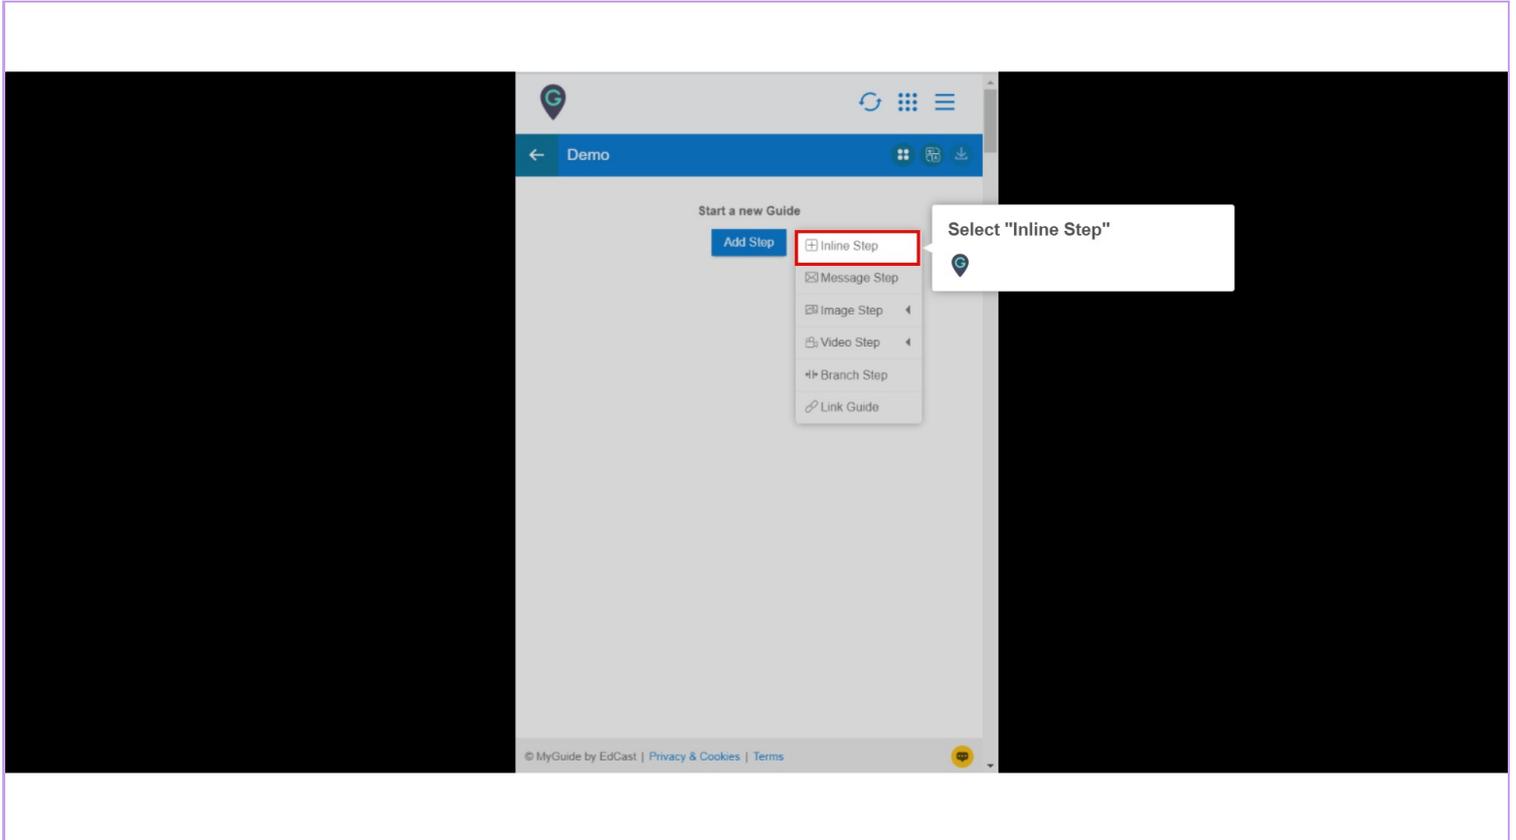

Step: 01

Click on "Add Step"

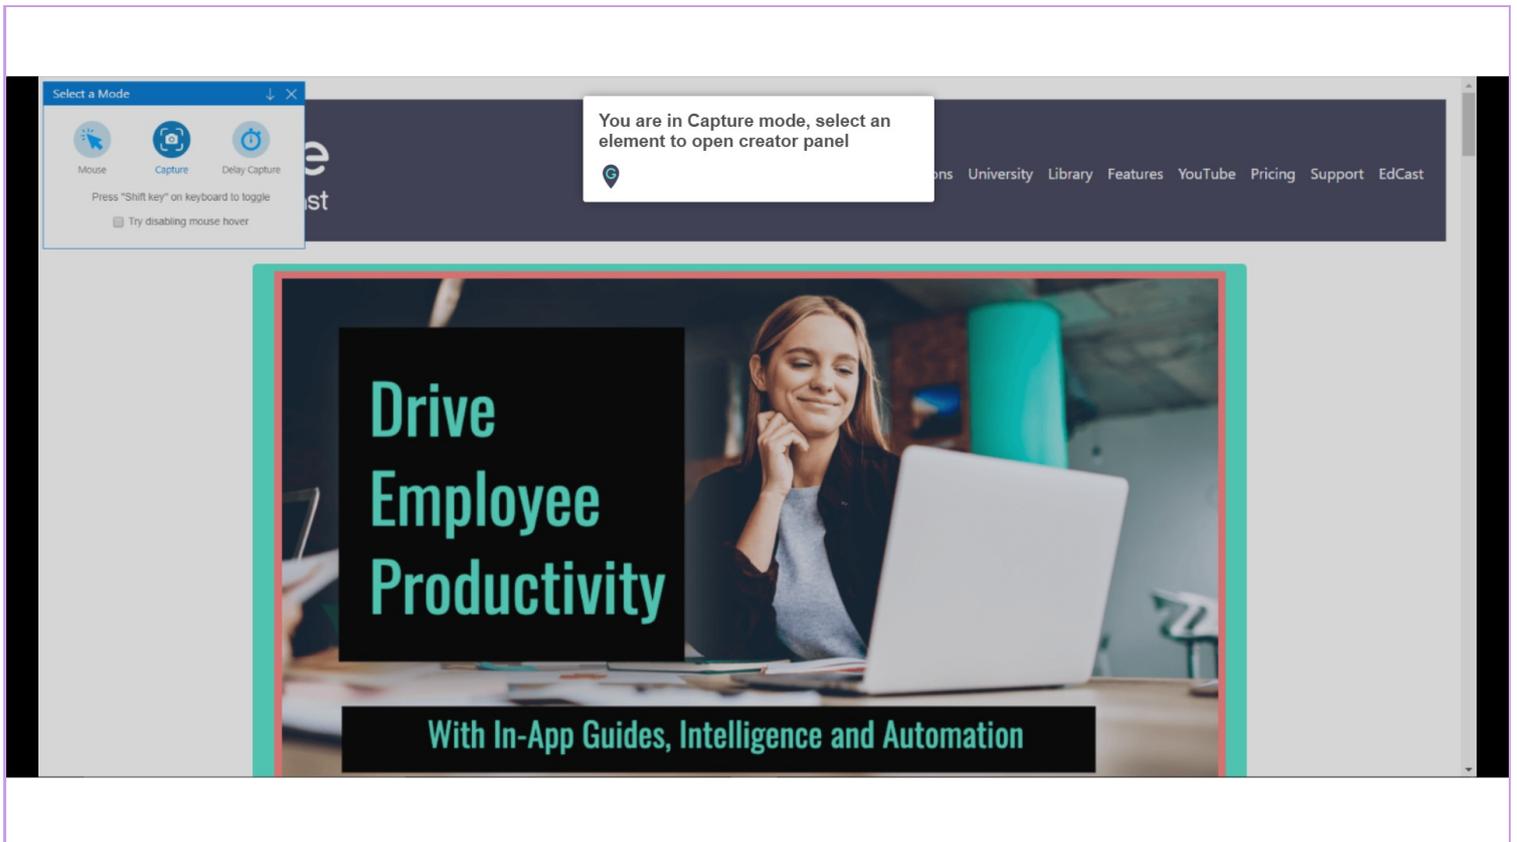

Step: 02

Select "Inline Step"

Step: 03

You are in Capture mode, select an element to open creator panel

Step: 04

Select an element

The screenshot displays the myGuide interface for creating a step. On the left, a 'Create Step' dialog box is open, featuring a 'Step Title' field with the text 'Click on "Home (current)"', a rich text editor, and a 'When will this step complete?' section with various trigger options. The 'Default' option is selected. At the bottom of the dialog are 'Cancel', 'Save & Next', and 'Save' buttons. On the right, a website header is visible with a 'Home' link highlighted by a red box. A white pop-up box with the text 'Select an element' and a myGuide icon is positioned over the 'Home' link. The background of the website shows a woman working on a laptop with text overlays like 'Employee Productivity' and 'In-App Guides, Intelligence and Automation'.

Step: 05

Go to "Customise popup style"

The screenshot displays the myGuide configuration interface. On the left, a control panel includes a 'Delay step playback (in seconds)' dropdown, a 'Reselect Element' button, a 'Select Area' button, a 'Screen Opacity' slider, and a 'Customise popup style' button highlighted with a red box. Below these are 'Matching Algorithm', 'Confidence Score' (60%), and 'Match Type' (Default) settings. On the right, a website preview shows a dark navigation bar with a 'Home' button highlighted by a red box and a tooltip that says 'Click on "Home (current)"'. Below the navigation bar is a large image of a woman working on a laptop with text overlays: 'Employee Productivity' and 'With In-App Guides, Intelligence and Automation'.

Step: 06

Choose position of the step pop up The selected position will turn blue and the possible positions will remain grey. While the light blue positions show the unavailability

The screenshot displays the myGuide configuration interface for a website. On the left, a control panel includes options for 'Delay step playback (in seconds)', 'Reselect Element', 'Select any sensitive area to hide from screen', 'Screen Opacity', and 'Customise popup style'. The 'Customise popup style' section shows a grid of 13 positions: a central blue square, four light blue squares above it, and eight grey squares around the perimeter. A tooltip points to the central blue square with the text: 'Choose position of the step pop up. The selected position will turn blue and the possible positions will remain grey. While the light blue positions show the unavailability'. Below this are 'Matching Algorithm', 'Confidence Score' (60%), and 'Match Type' (Default) settings, along with 'Cancel', 'Save & Next', and 'Save' buttons.

The main window shows a website with a 'Home' button highlighted by a red box. A tooltip above it says 'Click on "Home (current)"'. The website header includes links for 'Features', 'YouTube', 'Pricing', 'Support', and 'EdCast'. The main content area features a woman working on a laptop with the text 'e ductivity' and 'th In-App Guides, Intelligence and Automation'.

Step: 07

Now the pop up shifted downwards

Thank You!
