

How to Use "When will this step complete"
Feature

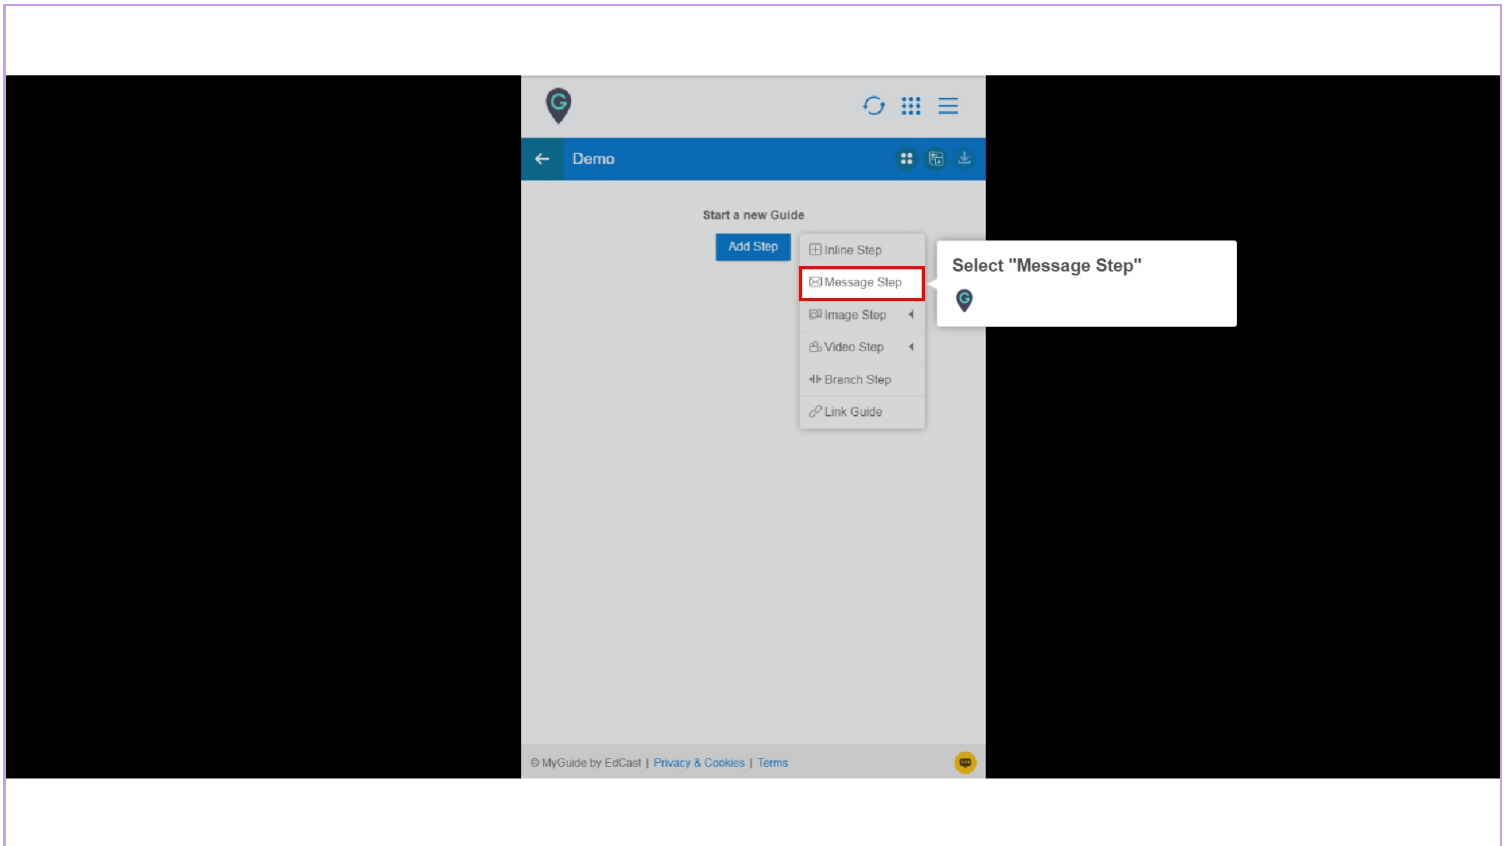

Step: 01

Click on "Add Step"

Step: 02

Select "Message Step"

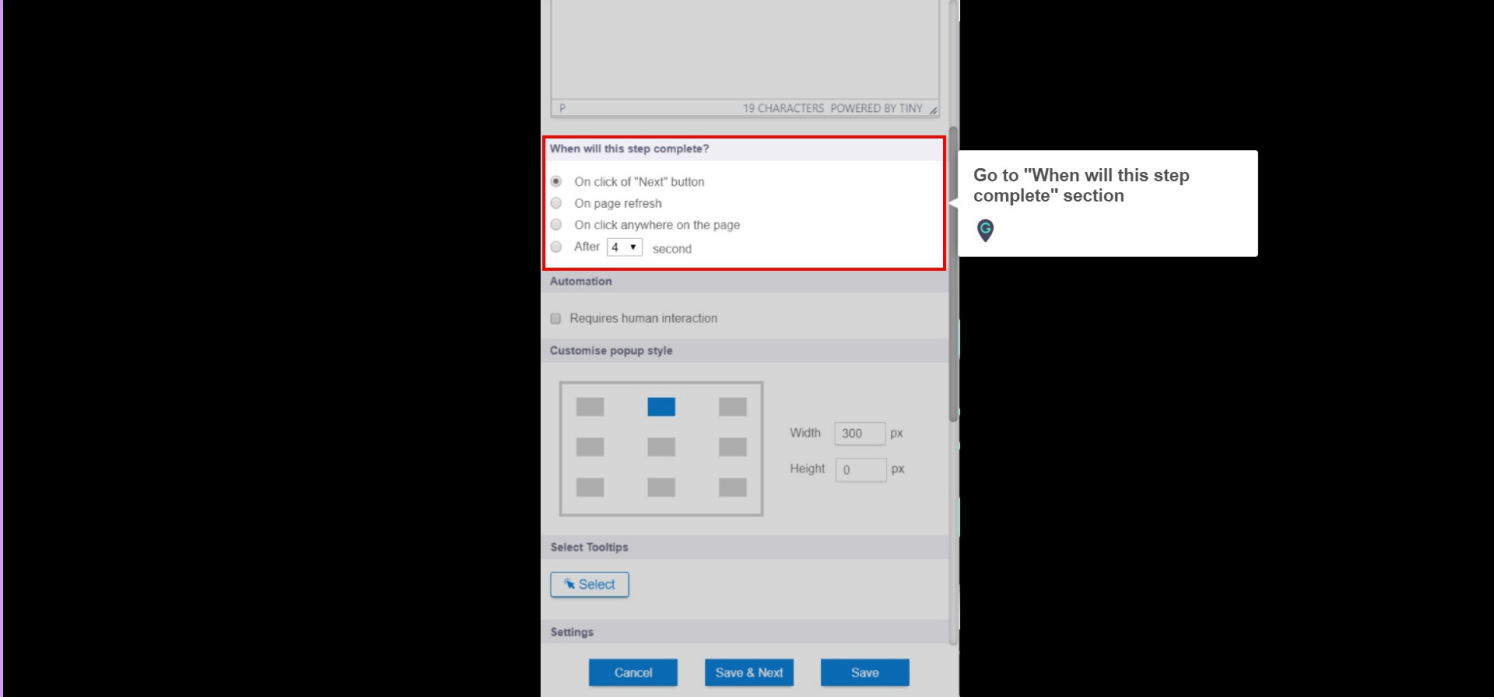

Step: 03

You can provide any message in this manner

The image shows a 'Create Step' dialog box on the left and a live preview of an in-app guide message on the right. The dialog box has tabs for 'Step Title', 'Step Description', and 'Step Audio'. It includes a rich text editor with a toolbar (File, Edit, View, Insert, Format, Tools, Table) and a text area containing 'Welcome to MyGuide!'. Below the text area, there are options for 'When will this step complete?' (On click of "Next" button, On page refresh, On click anywhere on the page, After 4 second) and 'Automation' (Requires human interaction). At the bottom are 'Cancel', 'Save & Next', and 'Save' buttons. The live preview shows a woman at a laptop with a message box that says 'Welcome to MyGuide!' and another message box that says 'You can provide any message in this manner'. The background of the preview shows a woman at a laptop with text overlays: 'Employee Productivity' and 'with In-App Guides, Intelligence and Automation'.

Step: 04

Go to "When will this step complete" section

The screenshot shows a configuration panel for a step completion event. The panel is divided into several sections:

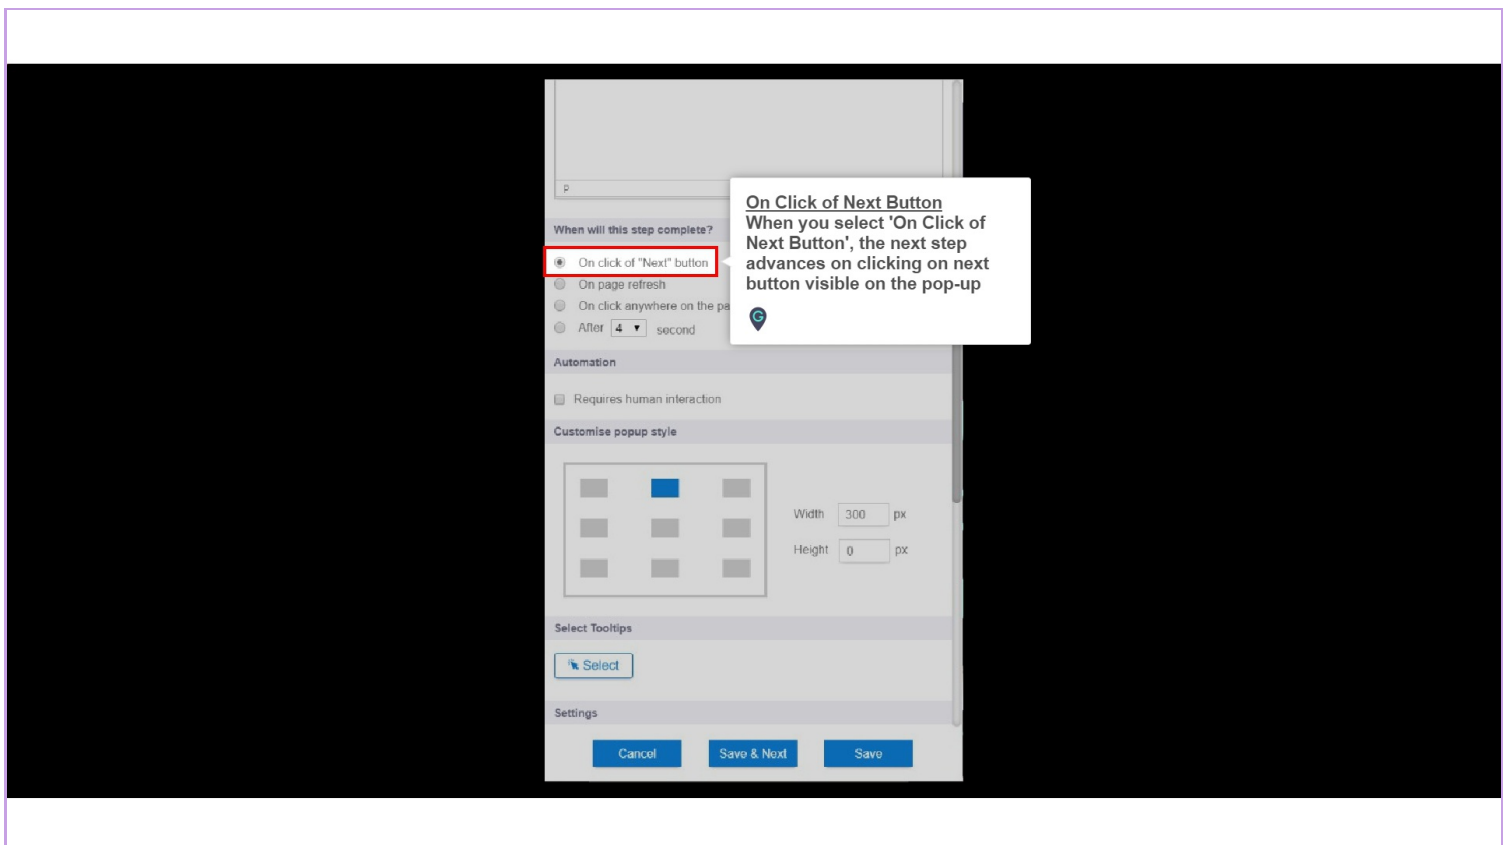

- When will this step complete?**: This section is highlighted with a red border and contains four radio button options:
 - On click of "Next" button
 - On page refresh
 - On click anywhere on the page
 - After second
- Automation**: Contains a checkbox labeled "Requires human interaction".
- Customise popup style**: Includes a grid of nine squares (the center one is blue) and two input fields: "Width" (300 px) and "Height" (0 px).
- Select Tooltips**: Contains a "Select" button.
- Settings**: Contains three buttons: "Cancel", "Save & Next", and "Save".

A callout box on the right side of the panel contains the text: "Go to 'When will this step complete' section" with a location pin icon.

Step: 05

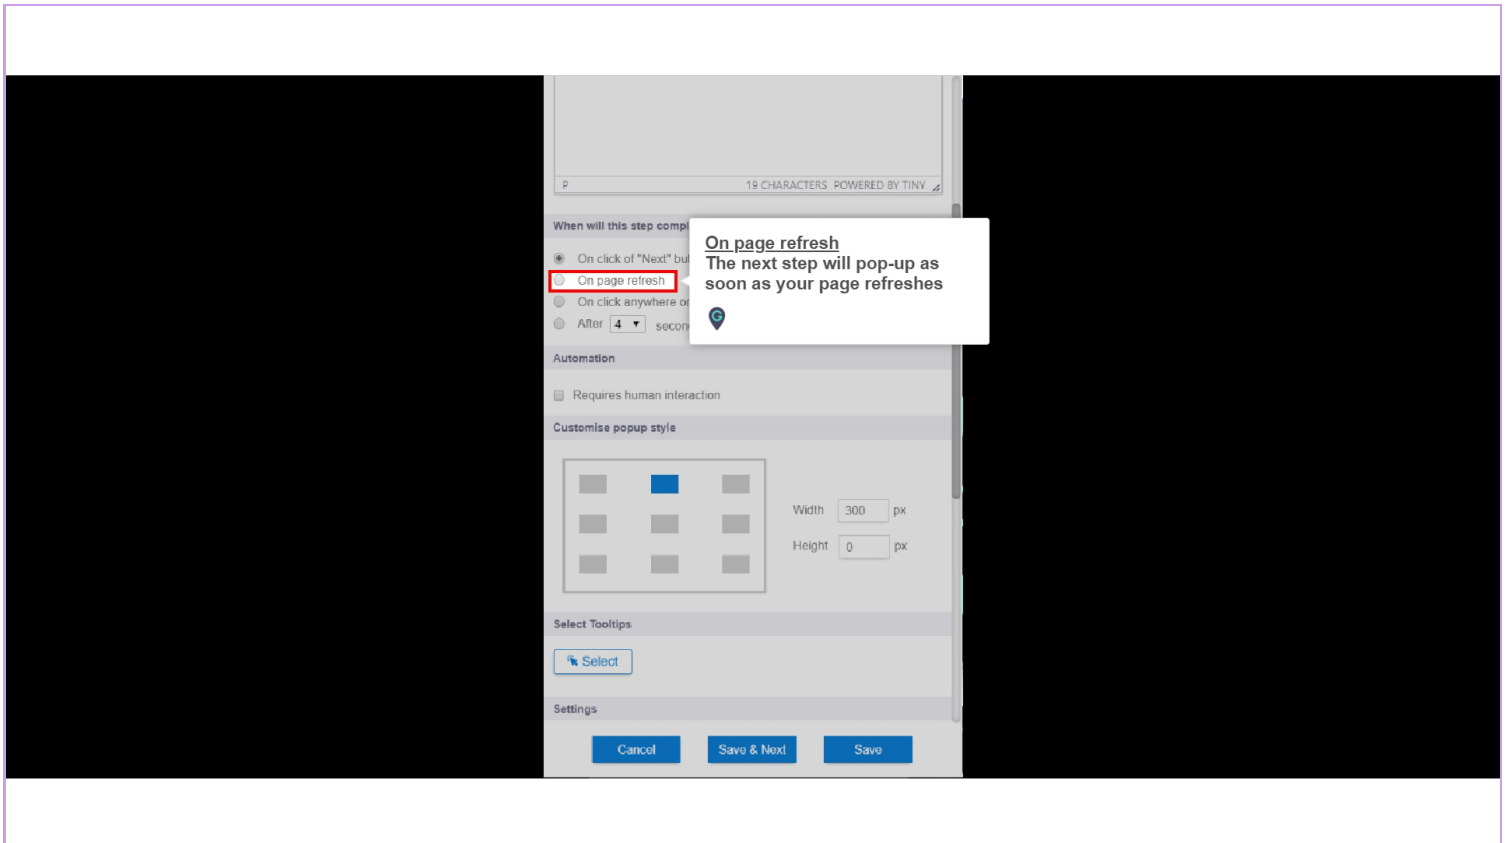

On Click of Next Button

When you select 'On Click of Next Button', the next step advances on clicking on next button visible on the pop-up

Step: 06

On page refresh The next step will pop-up as soon as your page refreshes

Step: 07

1) On click anywhere on the page When you will select "On click anywhere on the page", the next step will pop-up as soon as you will click anywhere on the page 2) Enable "Requires human interaction" condition as and when the step requires interaction from user's end if the guide is being automated

The screenshot shows the configuration interface for a step completion trigger. The interface is divided into several sections:

- When will this step complete?:** This section contains four radio button options: "On click of 'Next' button", "On page refresh", "On click anywhere on the page", and "After 4 second". The "On click anywhere on the page" option is selected and highlighted with a red box.
- Automation:** This section contains a checkbox labeled "Requires human interaction", which is checked and highlighted with a red box.
- Customise popup style:** This section includes a grid of nine squares for visual styling, with the center square highlighted in blue. To the right, there are input fields for "Width" (300 px) and "Height" (0 px).
- Select Tooltips:** This section contains a "Select" button.
- Settings:** This section contains three buttons: "Cancel", "Save & Next", and "Save".

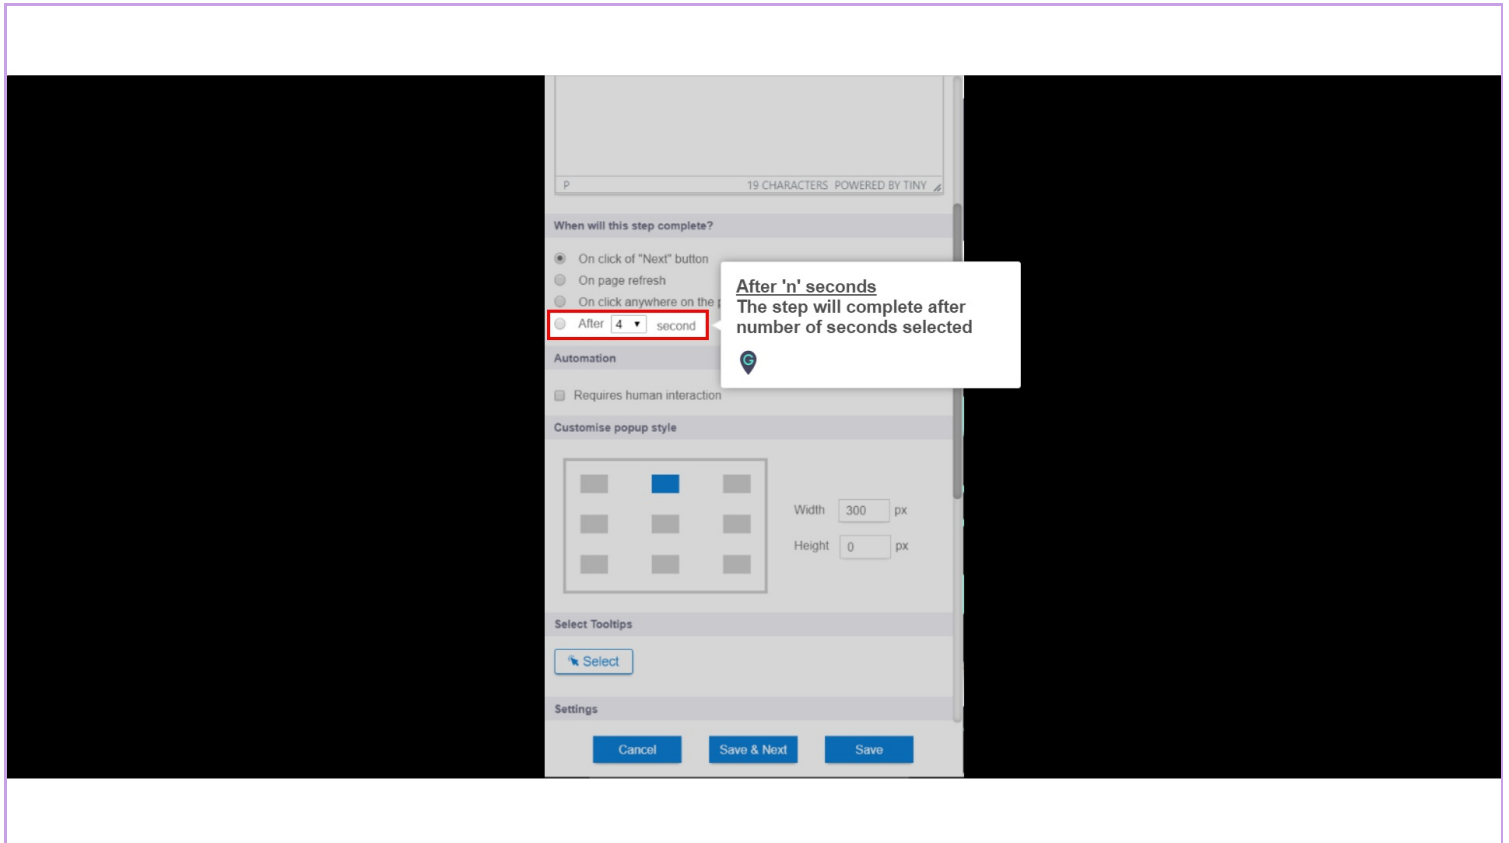

Two callout boxes provide additional instructions:

- A callout box on the left states: "Enable 'Requires human interaction' condition as and when the step requires interaction from user's end if the guide is being automated".
- A callout box on the right states: "On click anywhere on the page When you will select 'On click anywhere on the page', the next step will pop-up as soon as you will click anywhere on the page".

Step: 08

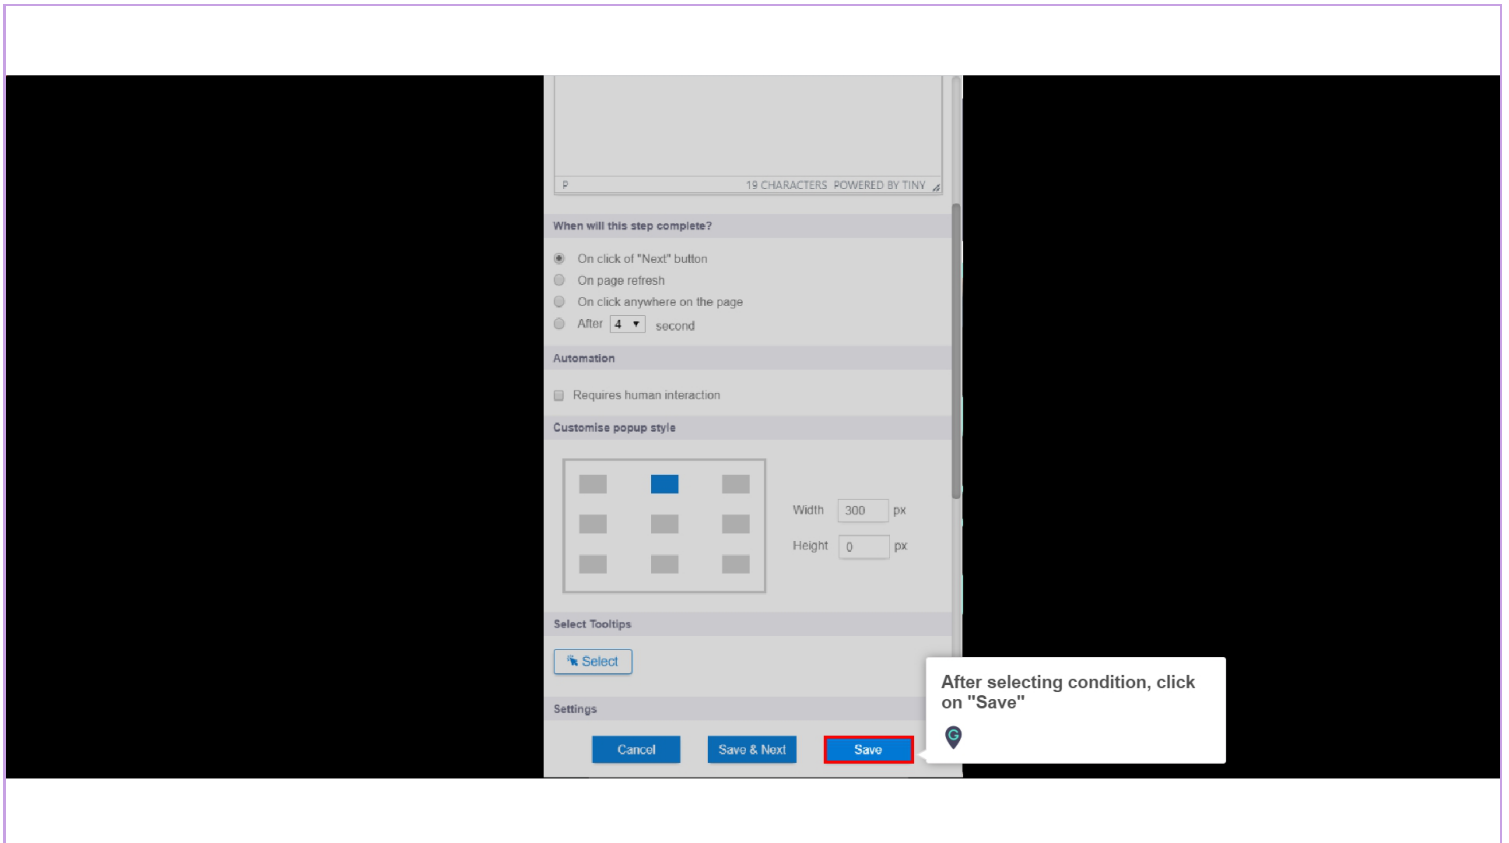

After 'n' seconds

The step will complete after number of seconds selected

Step: 09

After selecting condition, click on "Save"

Thank You!
