

How to check the recently opened preferences and delete them

Step: 01

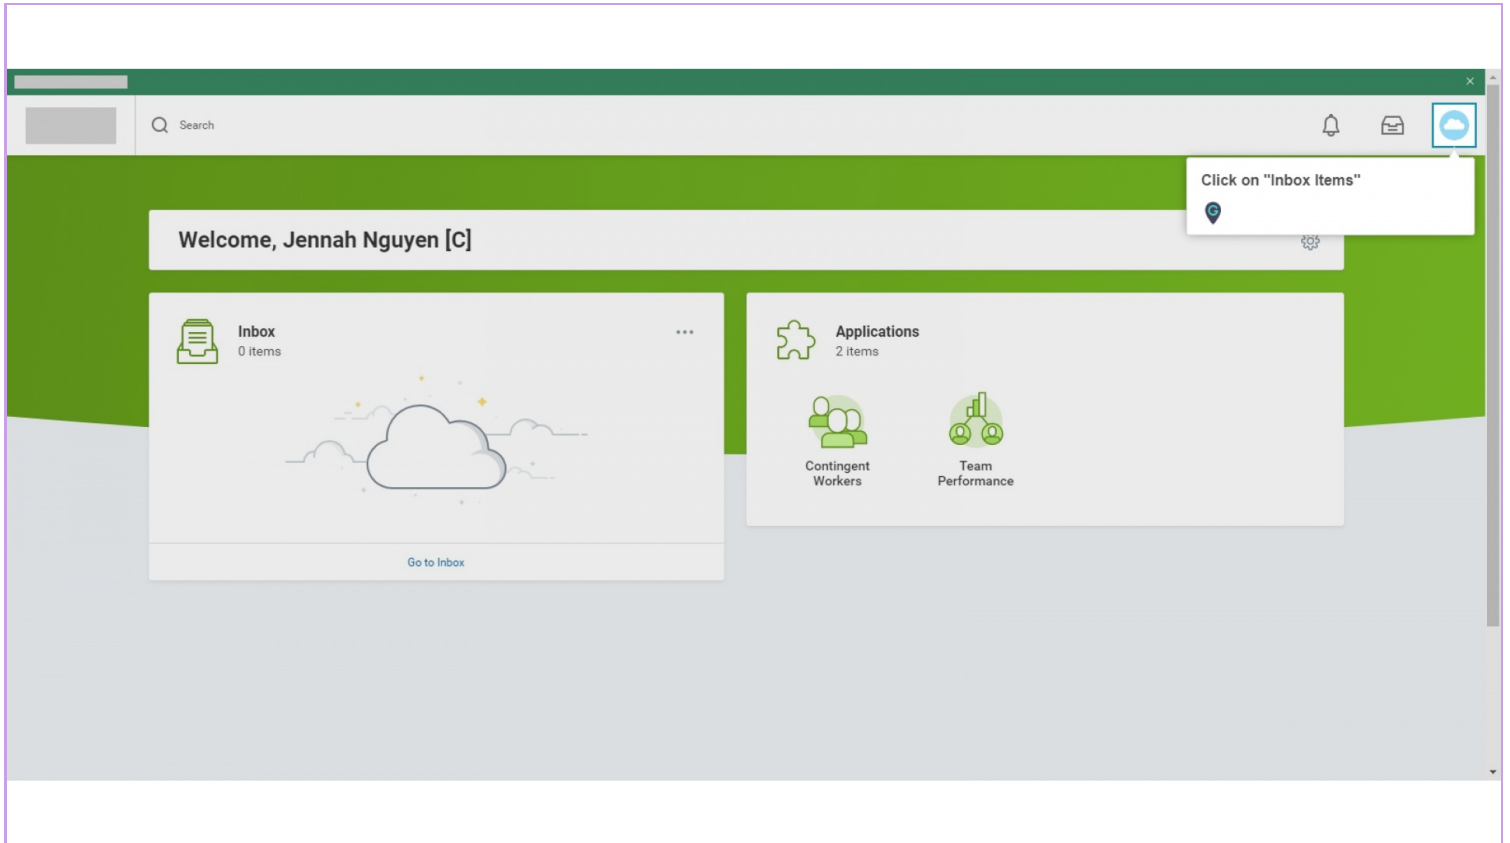

Welcome!

In this guide, you will learn to go to recently opened preferences and delete them

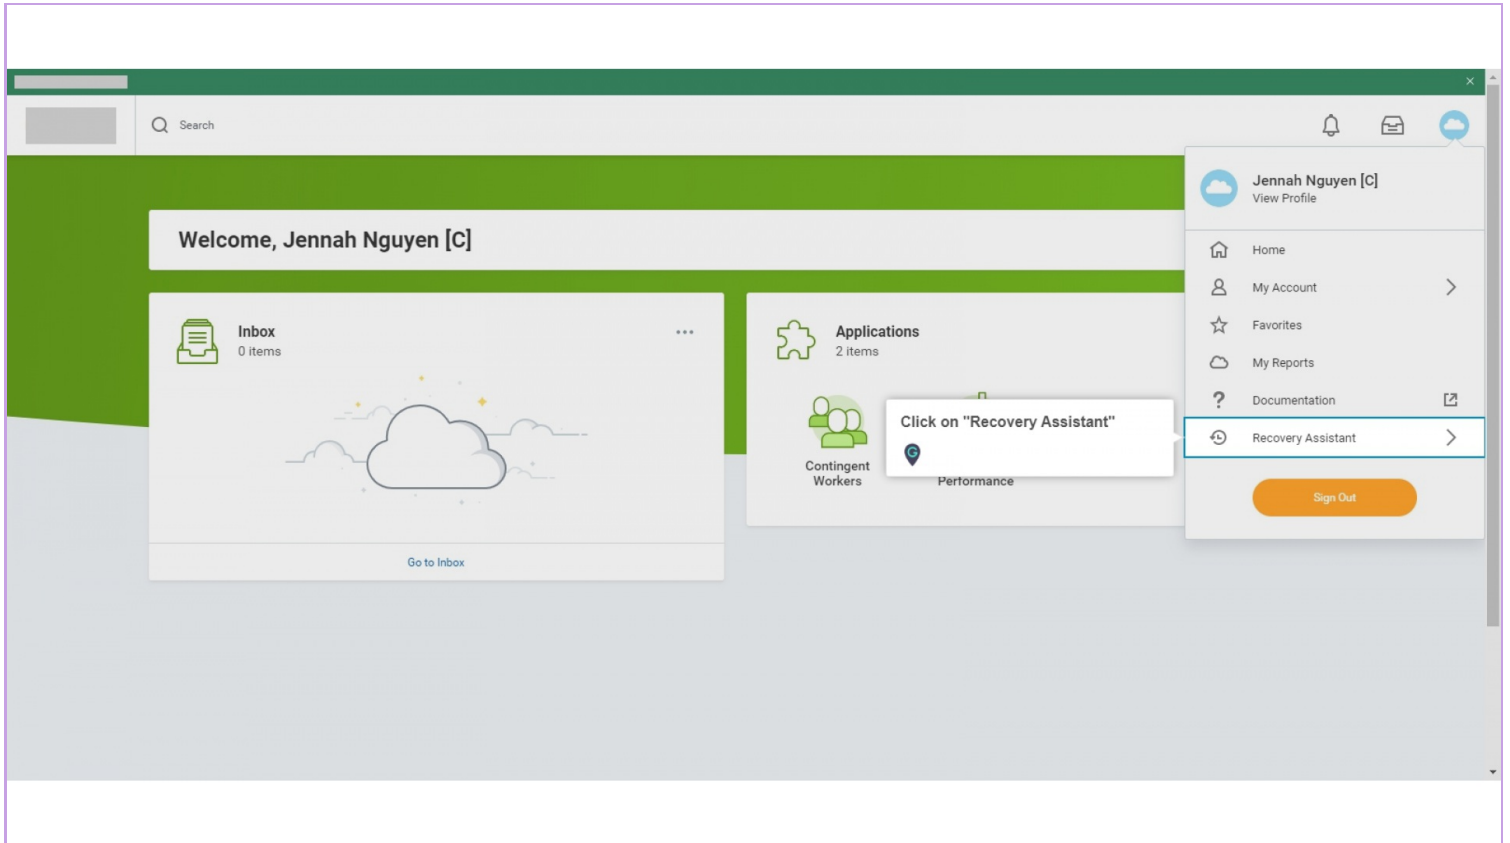

Step: 02

Click on "Inbox Items"

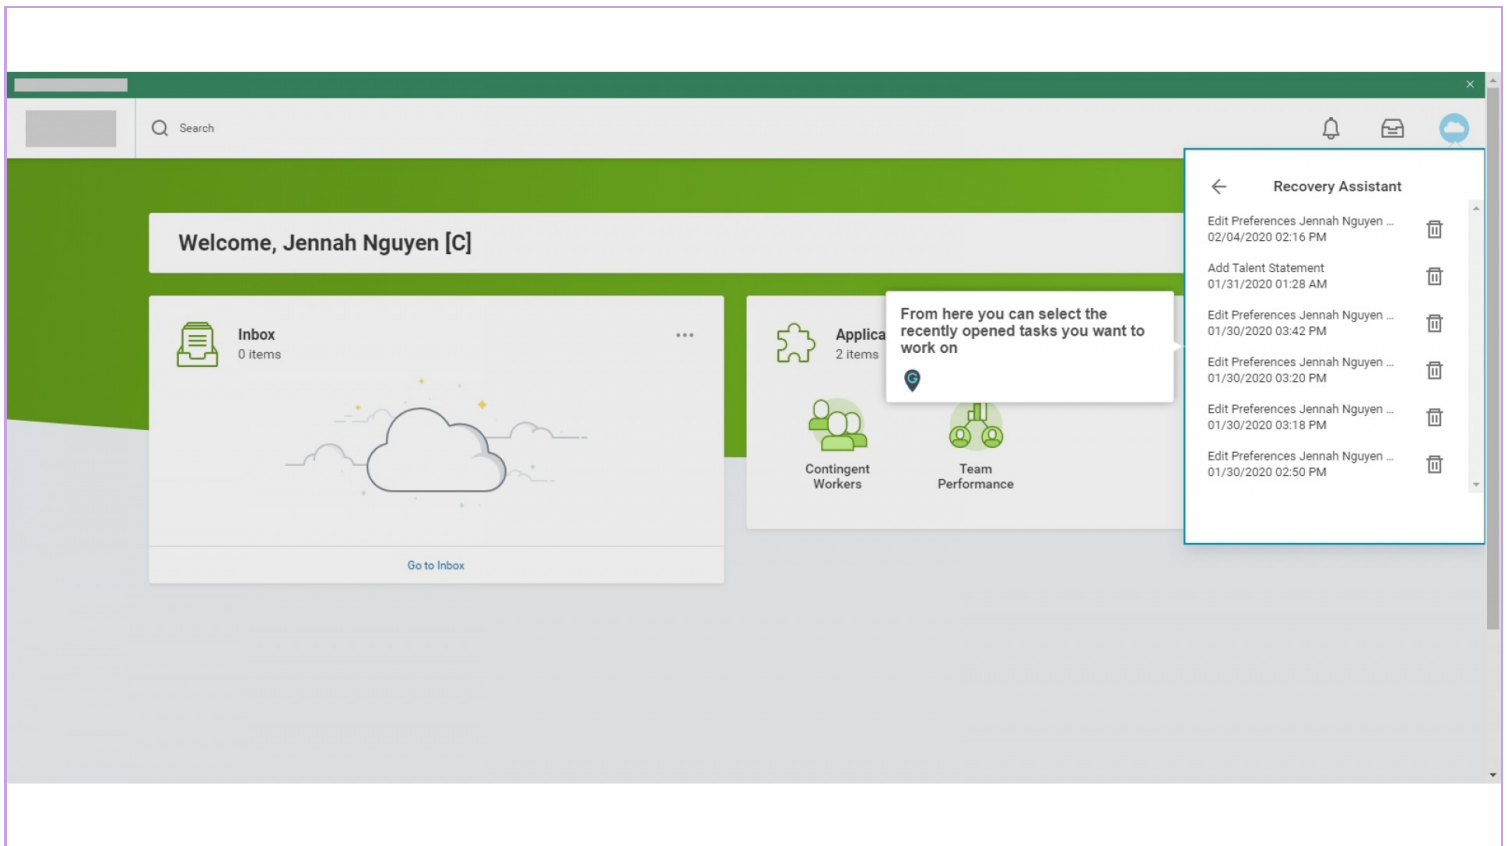

Step: 03

Click on "Recovery Assistant"

Step: 04

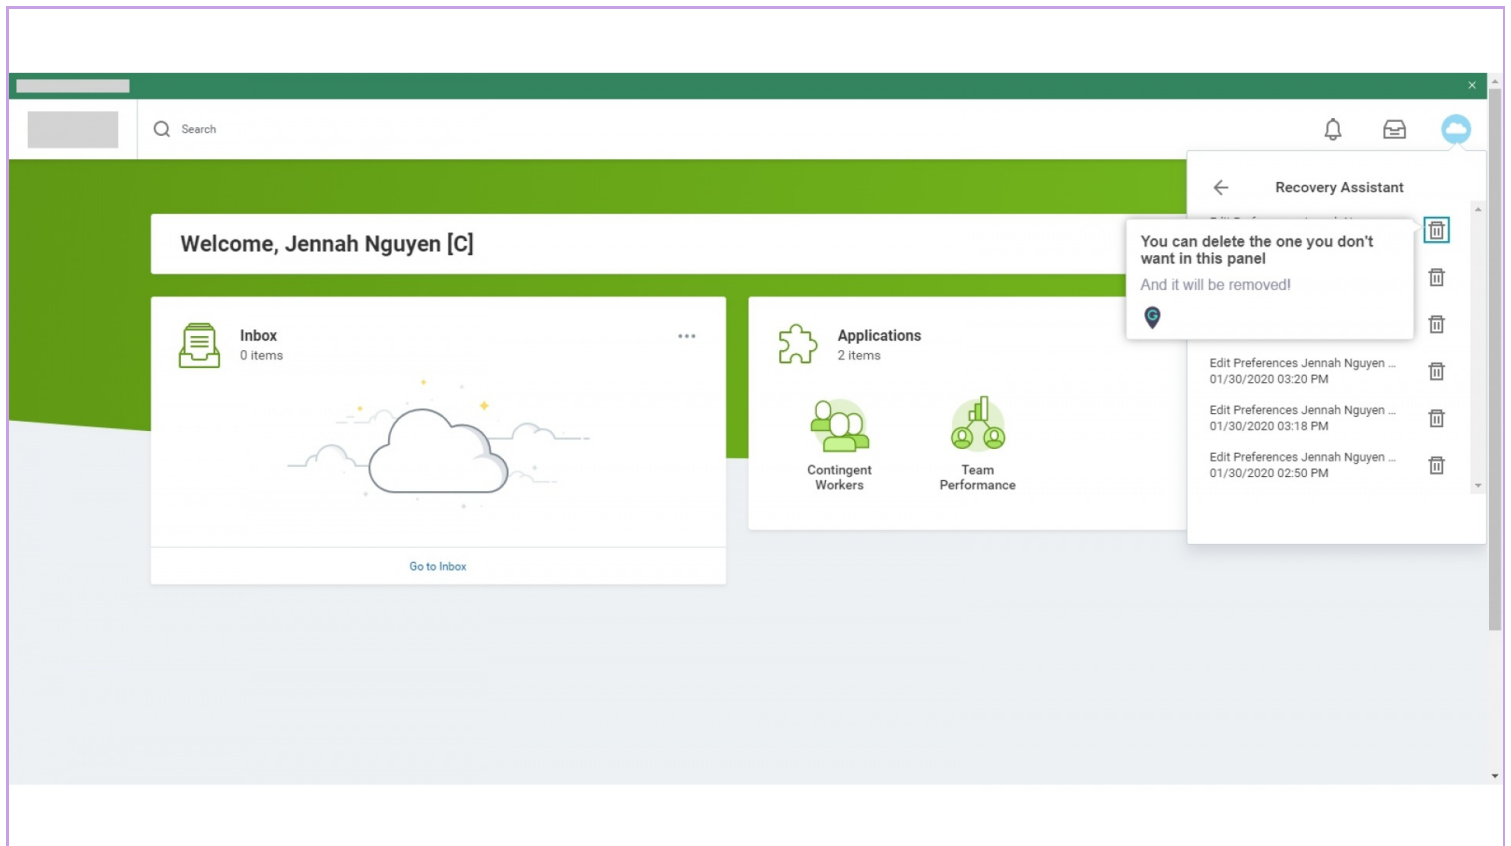

From here you can select the recently opened tasks you want to work on

Step: 05

You can delete the one you don't want in this panel

And it will be removed!

Thank You!
