

How to create a Blog post on Confluence

Step: 01

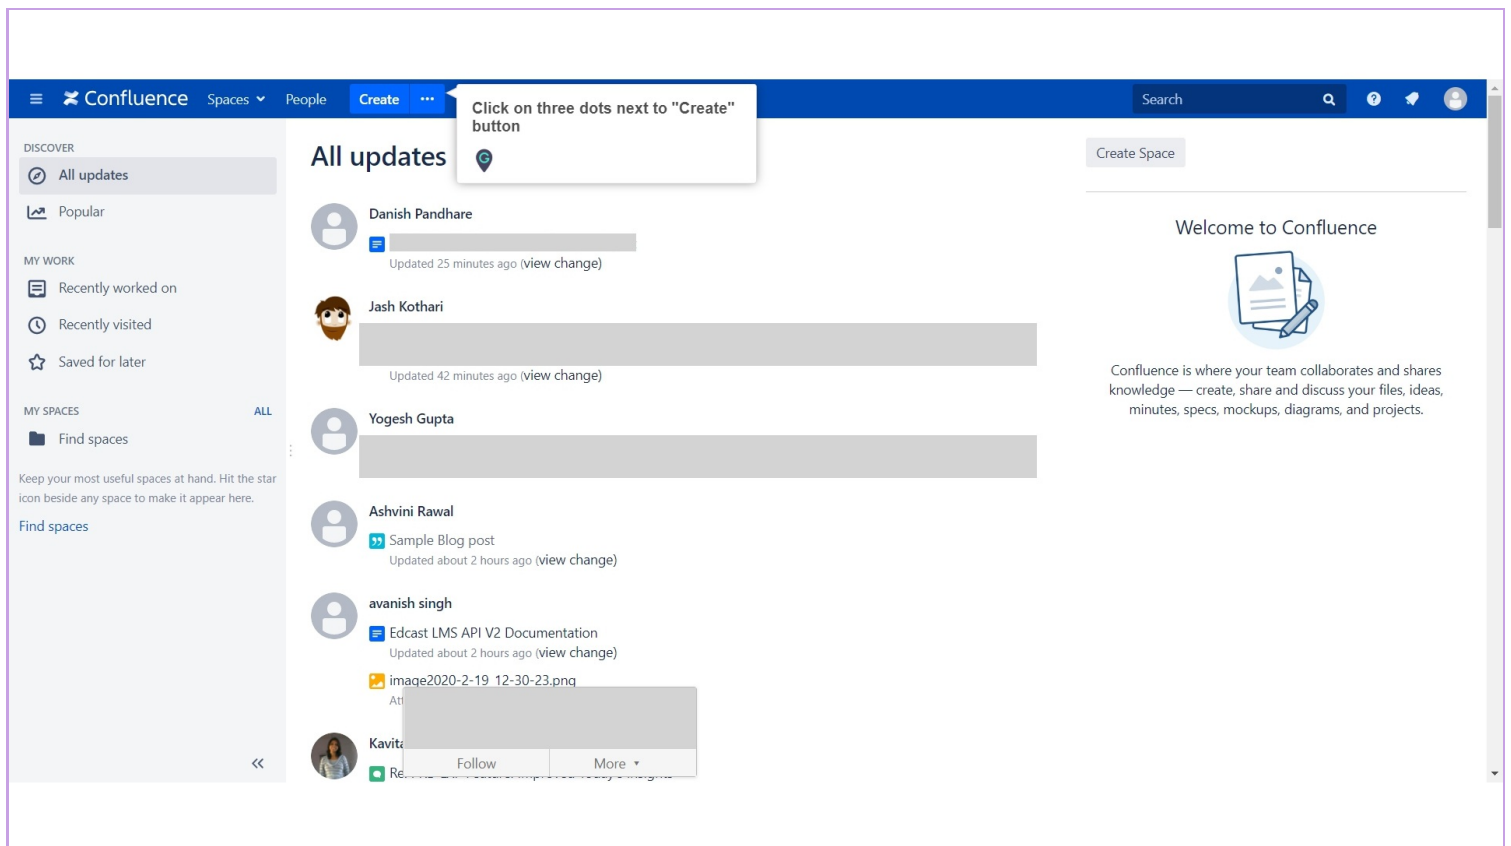

Welcome!

In this Guide, we will learn how to create a Blog post on Confluence

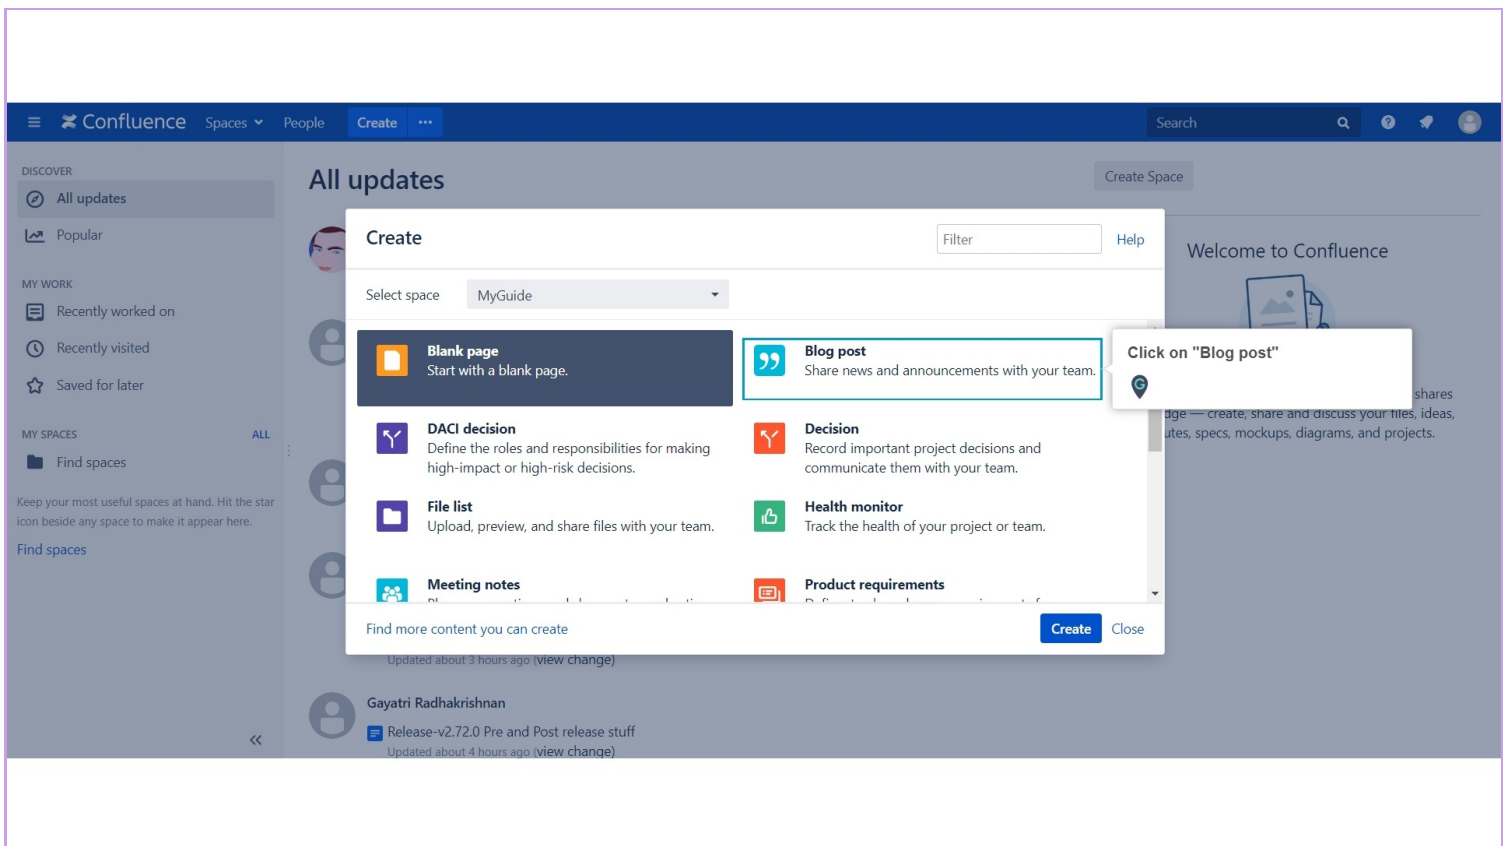

Step: 02

Click on three dots next to "Create" button

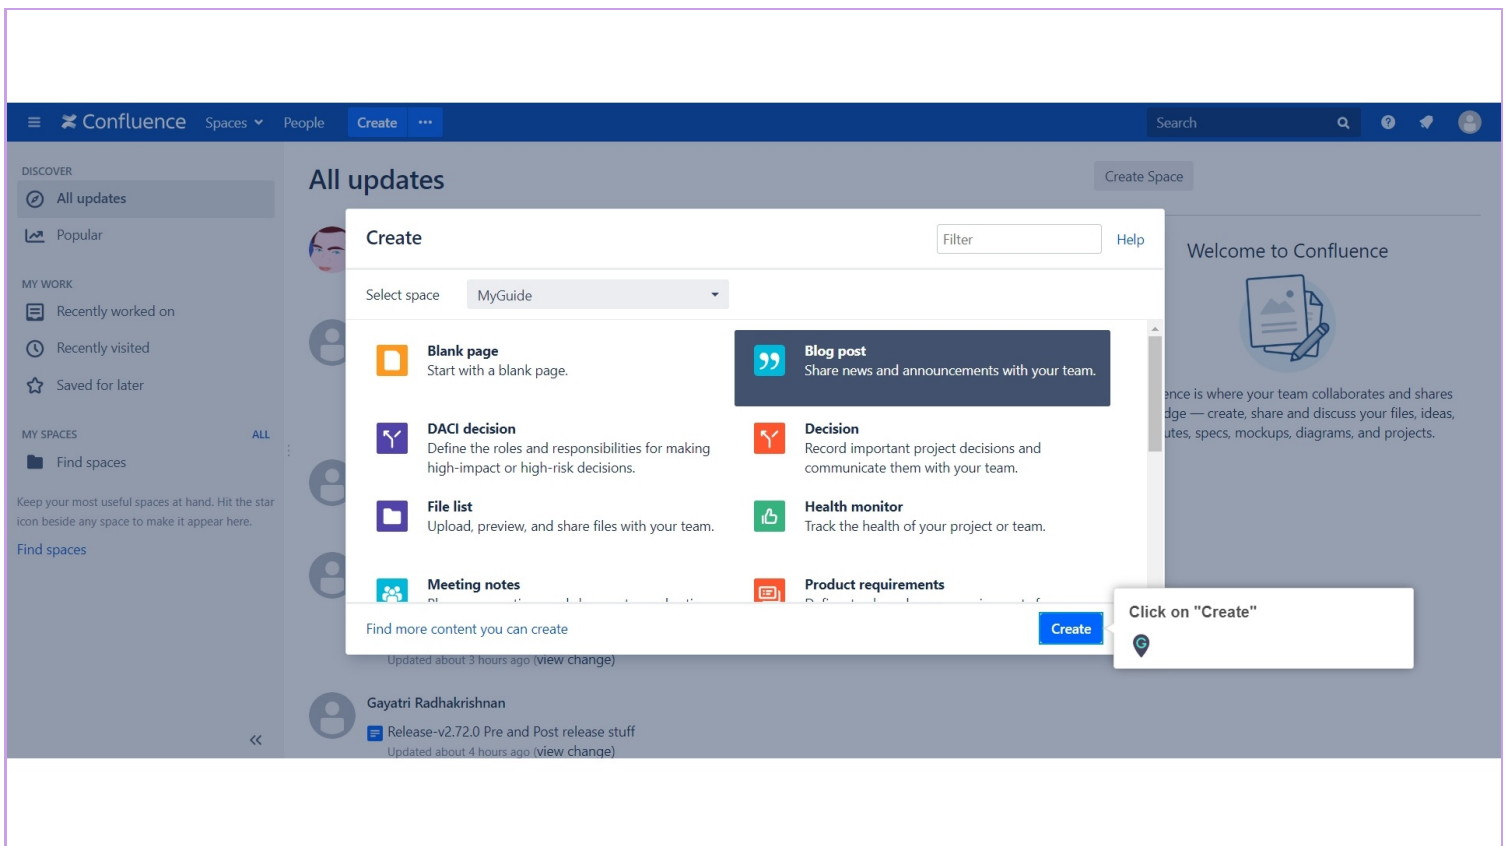

Step: 03

Click on "Blog post"

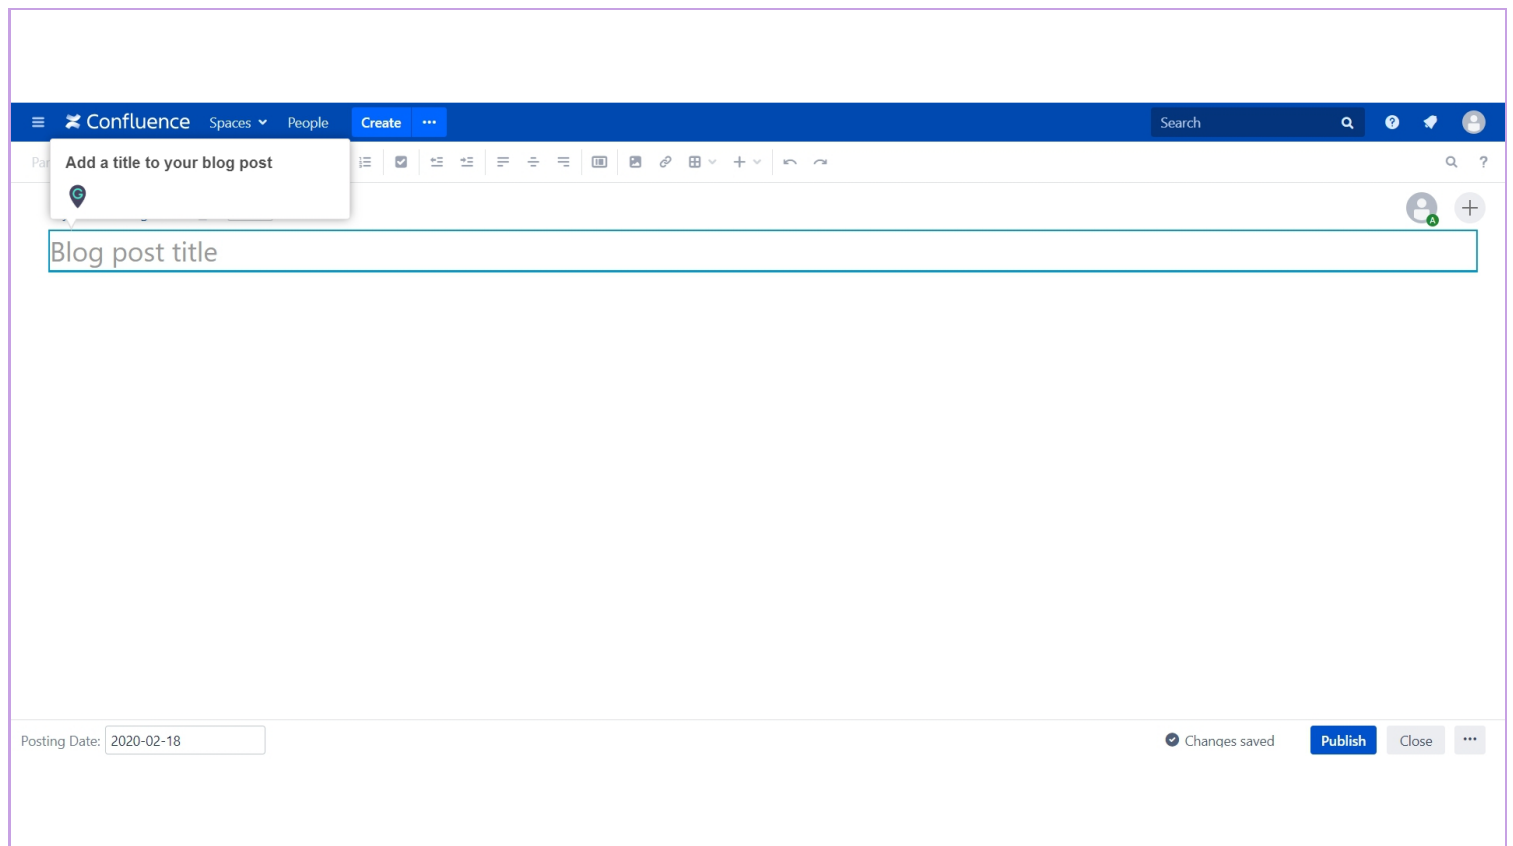

Step: 04

Click on "Create"

Step: 05

Add a title to your blog post

The screenshot shows the Confluence 'Create' page for a blog post. The top navigation bar includes the Confluence logo, 'Spaces', 'People', and a 'Create' button. A search bar is on the right. Below the navigation bar, a dropdown menu is open, showing 'Add a title to your blog post' with a location pin icon. The main content area has a text input field labeled 'Blog post title'. At the bottom, there is a 'Posting Date' field set to '2020-02-18', a 'Changes saved' status, and 'Publish', 'Close', and 'More' buttons.

Step: 06

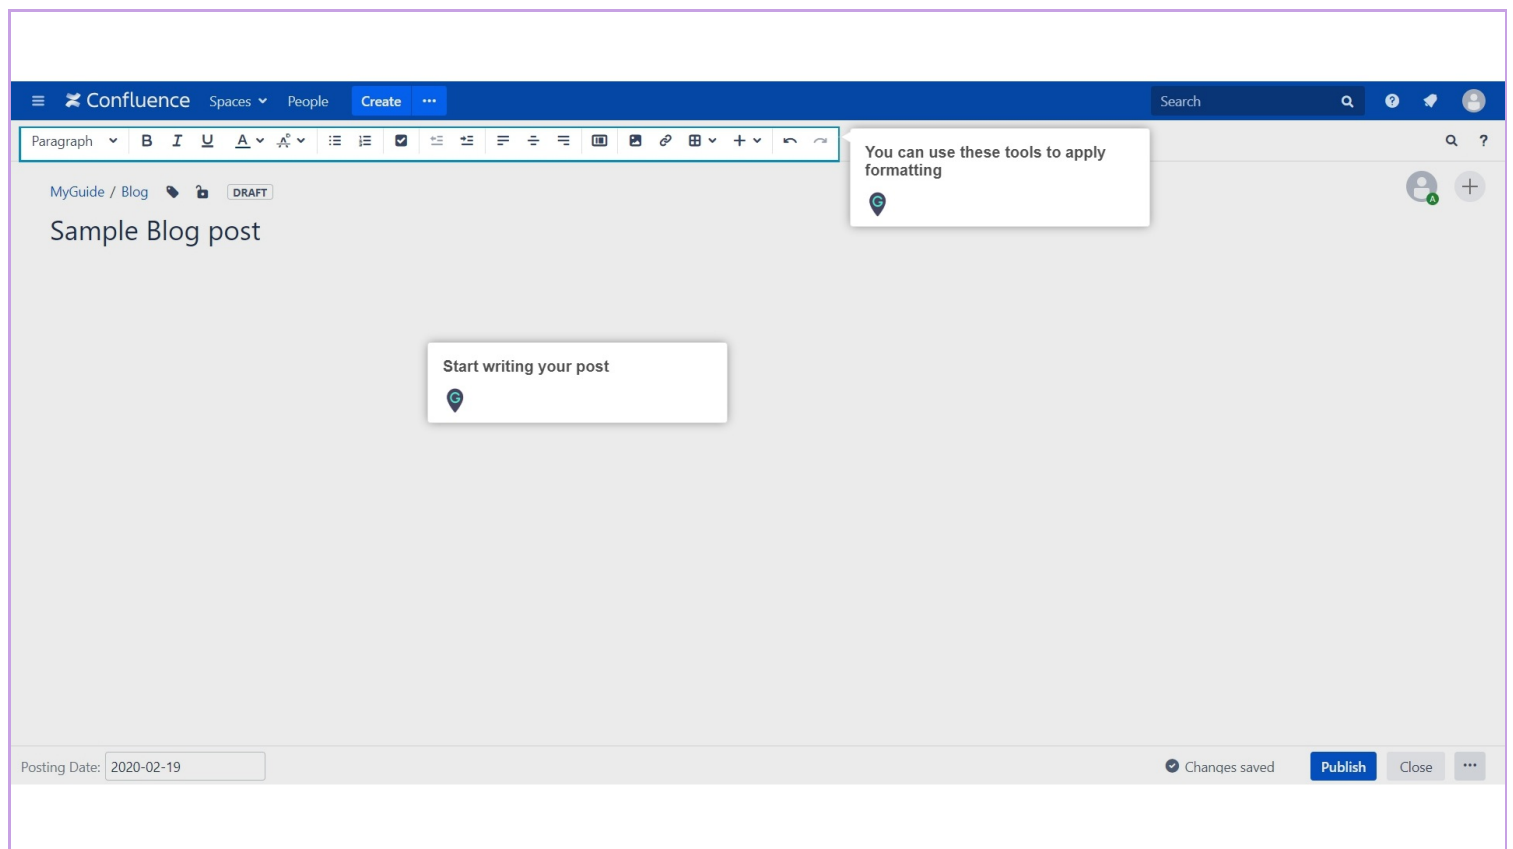

From here you can invite people to edit with you

Step: 07

Start writing your post

You can use these tools to apply formatting

The screenshot shows the Confluence 'Create' interface for a new blog post. The top navigation bar includes 'Confluence', 'Spaces', 'People', 'Create', and a search bar. Below the navigation bar is a rich text editor toolbar with options for Paragraph, Bold (B), Italic (I), Underline (U), Text color (A), Background color (A), Bulleted list, Numbered list, Checklist, Indent, Outdent, Link, Unlink, Table, and a plus sign for more options. The main content area is titled 'Sample Blog post' and is currently in 'DRAFT' status. A large, light gray text box in the center of the page contains the text 'Start writing your post' with a location pin icon. A tooltip on the right side of the page reads 'You can use these tools to apply formatting' with a location pin icon. At the bottom of the page, there is a 'Posting Date' field set to '2020-02-19', a 'Changes saved' status indicator, a 'Publish' button, a 'Close' button, and a three-dot menu icon.

Step: 08

Click on "Publish" once you're done!

You can edit your post anytime you want

The screenshot shows the Confluence 'Create' interface for a new blog post. The top navigation bar includes 'Confluence', 'Spaces', 'People', and a 'Create' button. A search bar is on the right. The main content area shows the draft title 'Sample Blog post' and a paragraph of text about MyGuide's Machine Learning curation engine. A tooltip message is displayed, stating: 'Click on "Publish" once you're done! You can edit your post anytime you want'. At the bottom, there is a 'Posting Date' field set to '2020-02-19' and a 'Publish' button.

MyGuide / Blog DRAFT

Sample Blog post

MyGuide For in-app guidance, intelligence and automation (Web, Desktop and Mobile)

MyGuide's Machine Learning curation engine ensures that only the highest quality, most relevant and contextual content is presented to your team. Drive employee productivity with automation. Automate app workflows flawlessly with MyGuide. Reduce the number of clicks by 90% and auto-fill forms with data. Each guide is automatically enabled for automation. MyGuide facilitate application usage with step-by-step guides (for web, mobile and desktop apps). Offer click-by-click direction with graphics, video and audio. Understand app usage with analytics. Drive adoption and ROI with push notification and in-app guides. AI-based targeting engine learns about your team members and their preferences -- and then makes continuous content and learning recommendations, which can be accessed directly where they are working (MS Teams, Slack, Salesforce et al). Machine Learning curation engine ensures that only the highest quality, most relevant and contextual content is presented to your team. It aggregates all your knowledge and learning content including from your LMS, intranet, external providers, your subject matter experts, and your team's preferred web-based content resources. Make every individual a contributor to Create a high-performance organization
