

How to create new API Key on Twilio

# Step: 01

## Welcome!

In this Guide, we will learn how to create new API Key on Twilio

The screenshot displays the Twilio Demo Project Dashboard. At the top, there is a navigation bar with the Twilio logo, 'Demo Project TRIAL', 'DOCS', and the user name 'ashvini rawal'. A 'Welcome!' notification box is overlaid on the dashboard, stating: 'In this Guide, we will learn how to create new API Key on Twilio'. The dashboard itself is divided into several sections: 'Project Info' (Trial Balance: \$15.50, Referral Program: Refer your network to Twilio — give \$10, get \$10), 'ACCOUNT SID', 'AUTH TOKEN', and 'PROJECT NAME' (Demo Project). A sidebar on the left contains navigation links for Dashboard, Billing, Usage, Settings, and Upgrade. A bottom section provides information on connecting Twilio to third-party applications like Zoho CRM, Zapier, or Hubspot, listing requirements such as Account SID and Auth Token, and an Upgraded Twilio account.

## Step: 02

### Click on "Settings"

The screenshot shows the Twilio Demo Project Dashboard. On the left sidebar, the 'Settings' menu item is highlighted with a blue box. A callout box with a white background and a blue border points to this menu item, containing the text 'Click on "Settings"'. The dashboard content includes a 'Project Info' section with fields for 'Project Name' (Demo Project) and 'Project Number' (partially obscured by a red box). Below this is a 'REFERRAL PROGRAM' section with a 'Referral Dashboard' button. The 'ACCOUNT SID' and 'AUTH TOKEN' fields are also visible, with the 'AUTH TOKEN' field having a 'Show' button. On the right side, there is a section titled 'Here's how your Twilio Trial account works:' with a list of bullet points: 'You can send messages and make calls to verified numbers.' and 'Messages and calls include a note about this coming from a "Twilio trial account."'.

## Step: 03

Click on "API Keys"

The screenshot displays the Twilio console interface. On the left sidebar, the 'API Keys' menu item is highlighted with a red box. A tooltip points to it with the text "Click on 'API Keys'". The main content area shows the 'General Settings' page. Under the 'Properties' section, the 'PROJECT NAME' is 'Demo Project' and the 'ACCOUNT SID' is 'AC4c6932c90d8c1a426e74fe1b3b714641'. Below this, there is a section for '2FA' (Two-Factor Authentication) with three options: 'DISABLED' (selected), 'ONCE PER COMPUTER', and 'EVERY LOG-IN'. At the bottom, there are two buttons for 'API Credentials': 'LIVE Credentials' and 'TEST Credentials', each with a link to learn more.

## Step: 04

Click on "Create new API Key"

The screenshot displays the Twilio web interface for managing API Keys. The top navigation bar includes the Twilio logo, 'Demo Project TRIAL', 'Settings /', an 'Upgrade Project' button, and a search bar. The left sidebar lists navigation options: Dashboard, Billing, Usage, Settings (with sub-items: General, Subaccounts, Manage Users, API Keys, Credentials, Connect Apps, Audit Events, Audit Events Settings), and Upgrade. The main content area is titled 'API Keys' and contains the following text: 'API Keys are revokable credentials for the Twilio API. You can use API Keys to authenticate to the REST API using basic auth, with `user=KeySid` and `password=KeySecret`. And, you can use API Keys to sign Access Tokens, which are used by Twilio's Real-Time Communications SDKs. Access Tokens are short-lived credentials that can be distributed safely to client-side applications. [Learn more](#)'. Below this text is a grey box with the message 'You have no API Keys' and a red button labeled 'Create new API Key'. A callout box with a pointer icon highlights the button with the text 'Click on "Create new API Key"'. The bottom of the sidebar has a double-left arrow icon.

## Step: 05

# Enter "Friendly Name"

The screenshot shows the Twilio console interface for creating a new API key. The page title is "New API Key" and the sub-section is "Properties". There are two main input fields: "FRIENDLY NAME" and "KEY TYPE". The "KEY TYPE" is currently set to "Standard". A callout box with a location pin icon points to the "FRIENDLY NAME" field, containing the text "Enter 'Friendly Name'". Below the form, there are two buttons: "Create API Key" (in red) and "Cancel". The left sidebar shows the navigation menu with "API Keys" highlighted. The top navigation bar includes the Twilio logo, "Demo Project TRIAL", "Settings / API Keys /", "Upgrade Project", and a search bar.

## Step: 06

### Select "Key Type"

The screenshot displays the Twilio console interface for creating a new API key. The page title is "New API Key" and the sub-section is "Properties". The "FRIENDLY NAME" field is filled with "Demo". The "KEY TYPE" dropdown menu is open, showing "Standard" as the selected option. A tooltip titled "Select 'Key Type'" is visible over the dropdown, indicating the current selection. Below the form, there are two buttons: "Create API Key" (in red) and "Cancel". The left sidebar contains navigation links for Dashboard, Billing, Usage, Settings (General, Subaccounts, Manage Users, API Keys, Credentials, Connect Apps, Audit Events, Settings), and Upgrade. The top navigation bar includes the Twilio logo, "Demo Project TRIAL", "Settings / API Keys /", "Upgrade Project", and a search bar.

## Step: 07

Click on "Create API Key" and you're done!

The screenshot displays the Twilio console interface for creating a new API key. The top navigation bar includes the Twilio logo, 'Demo Project TRIAL', 'Settings / API Keys /', an 'Upgrade Project' button, and a search bar. The left sidebar contains navigation links for Dashboard, Billing, Usage, Settings (General, Subaccounts, Manage Users, API Keys, Credentials, Connect Apps, Audit Events, Audit Events Settings), and Upgrade. The main content area is titled 'New API Key' and shows the 'Properties' section with a 'FRIENDLY NAME' field containing 'Demo' and a 'KEY TYPE' dropdown menu set to 'Standard'. A red 'Create API Key' button is prominently displayed. A tooltip with a location pin icon points to the button, containing the text: 'Click on "Create API Key" and you're done!'.
