

How to Set your Default Start Page on Tableau Online

Step: 01

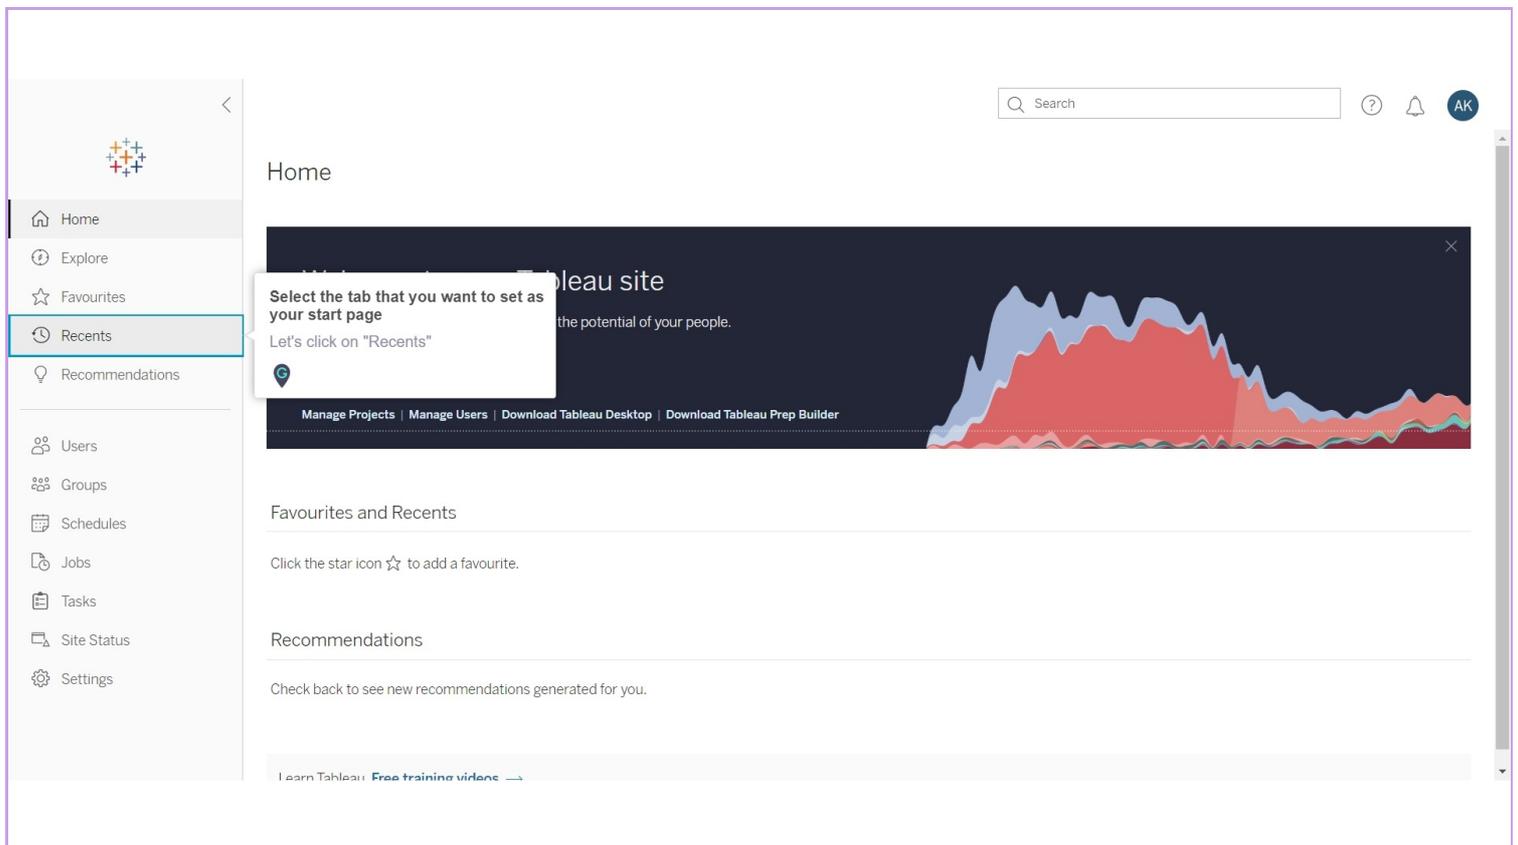

Open your Tableau site

Step: 02

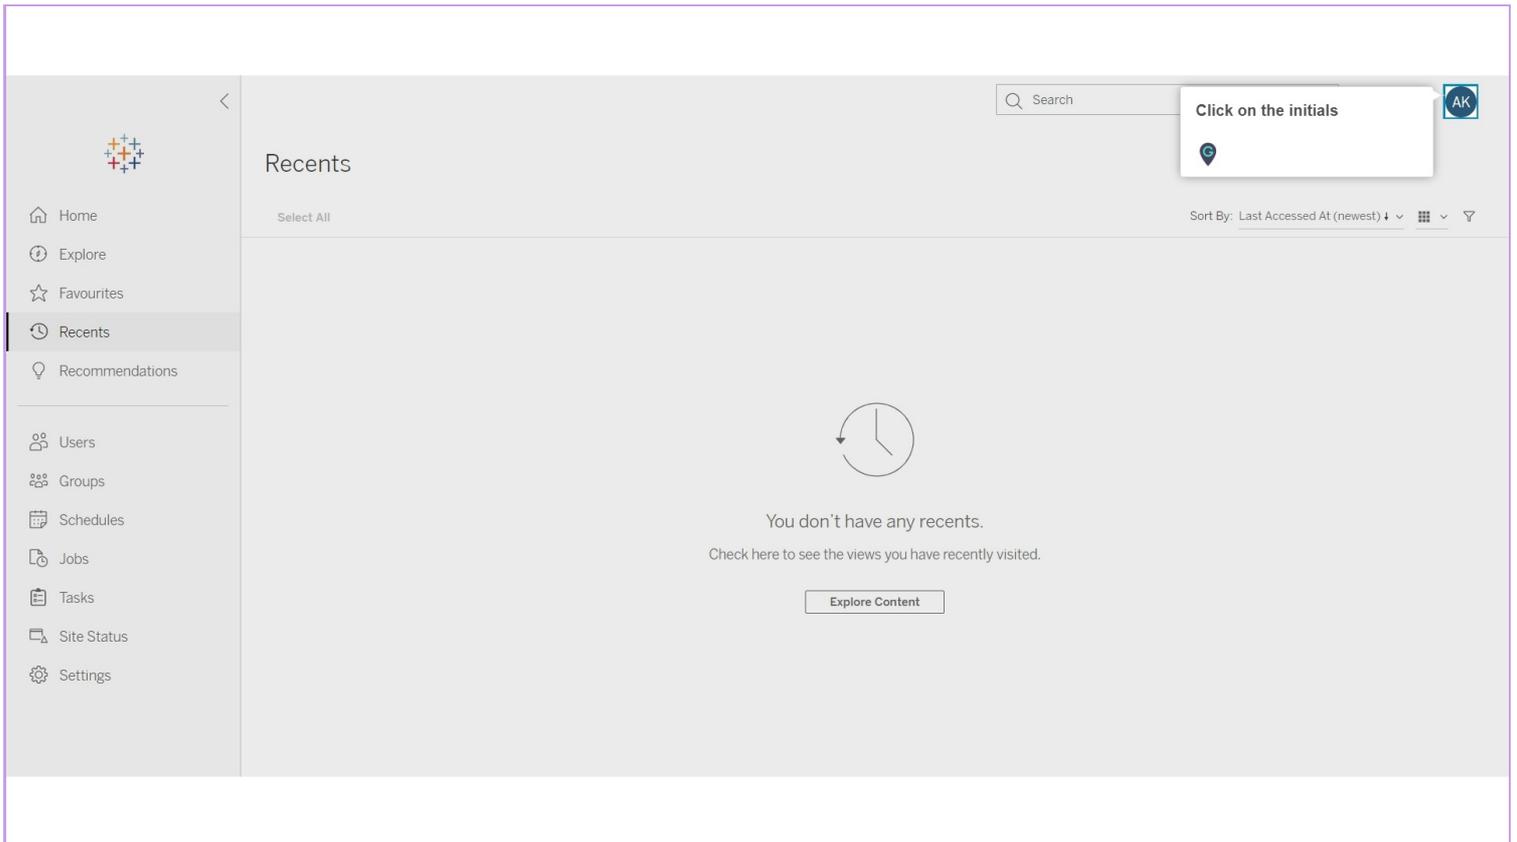

Select the tab that you want to set as your start page

Let's click on "Recents"

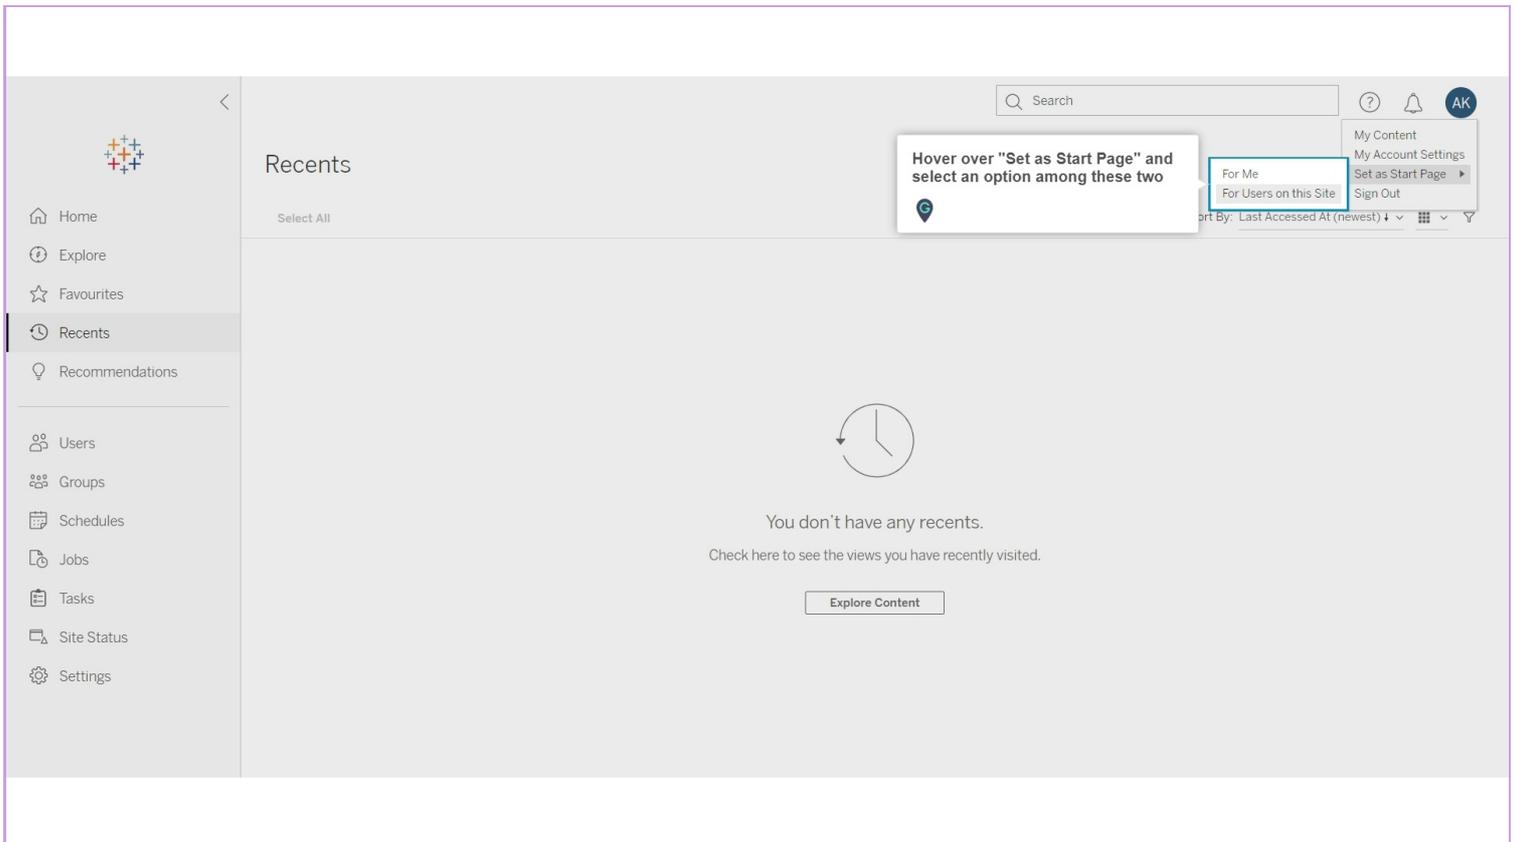

Step: 03

Click on the initials

Step: 04

Hover over "Set as Start Page" and select an option among these two

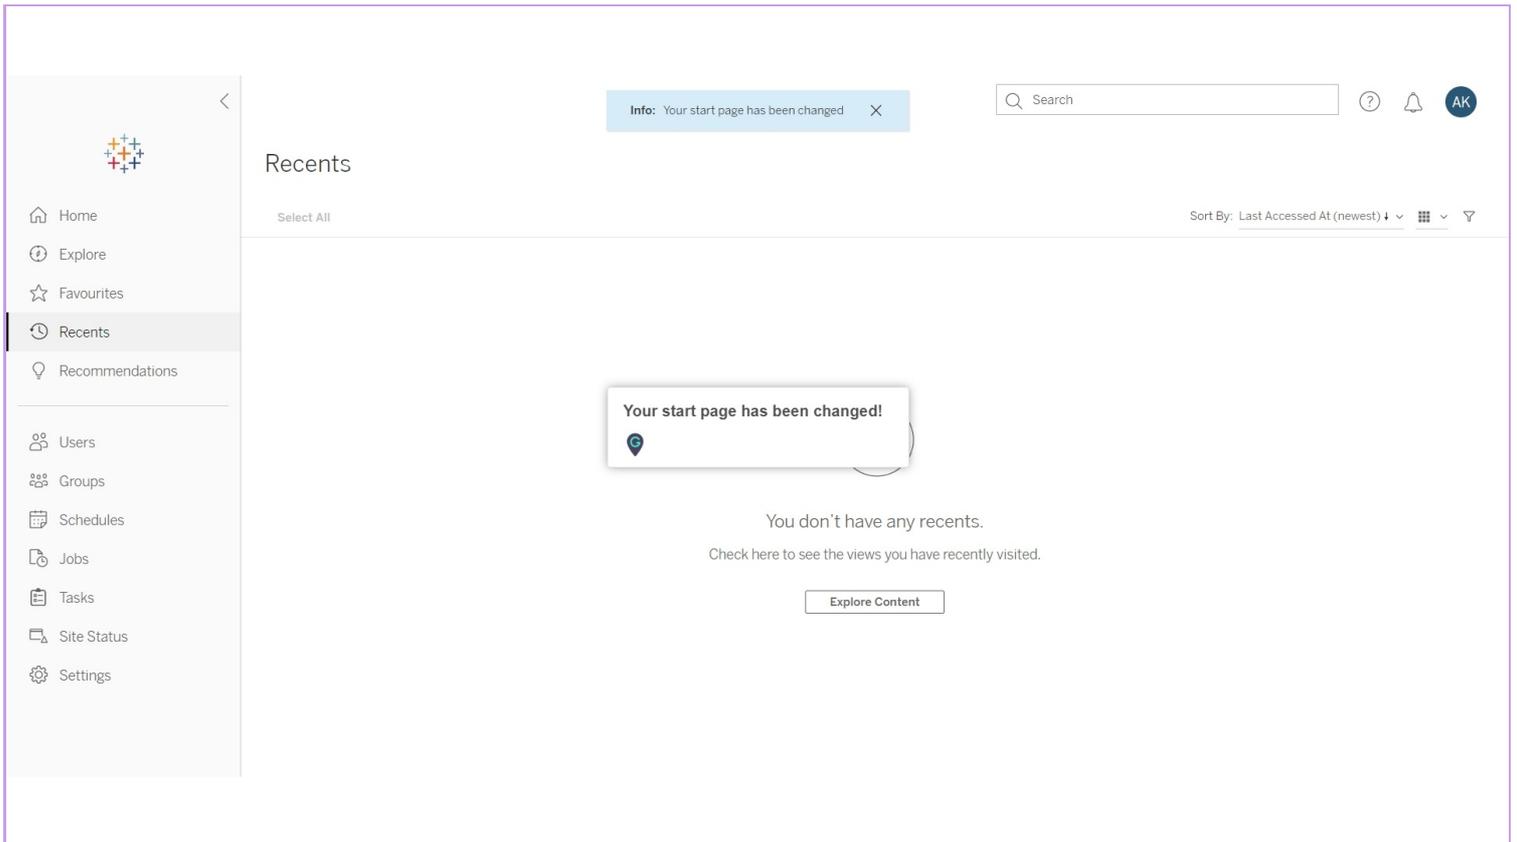

Step: 05

Click on "OK"

The screenshot displays a web application interface. On the left is a sidebar menu with options: Home, Explore, Favourites, Recents (highlighted), Recommendations, Users, Groups, Schedules, Jobs, Tasks, Site Status, and Settings. The main content area is titled 'Recents' and contains a 'Select All' link and a 'Sort By: Last Accessed At (newest)' dropdown. A modal dialog is centered on the screen with the title 'Make This My Start Page' and the text 'You will land on this page after sign in.' It has 'Cancel' and 'OK' buttons. A callout box with a location pin icon points to the 'OK' button and contains the text 'Click on "OK"'. Below the modal, the text reads 'You don't have any recents. Check here to see the views you have recently visited.' with an 'Explore Content' button.

Step: 06

Your start page has been changed!

Thank You!
