

How to track synchronization activity on  
connection between two services

# Step: 01

## Welcome!

In this Guide we will learn how to track synchronization activity on connection between two services

## Step: 02

Click on "activity" next to the connection you want to track

The screenshot displays the Piesync dashboard. At the top, there is a navigation bar with the Piesync logo, a trial status indicator ('Trial - 14 days remaining'), and buttons for '+ New Connection', 'My Connections', 'Get support', and a user profile icon. Below the navigation bar is a yellow banner with a promotional message: 'Get 25% off when you upgrade using your HubSpot Customer discount.'

The main content area is titled 'Connections' and includes a search bar for finding apps. Below this is a row of application icons including Google Contacts, HubSpot CRM, Outlook, Microsoft Exchange, iCloud, Contacts+ (form...), 1CRM, 3dcart, Act! 365, Act! Premium, ActiveCampaign, ActiveDEMAND, and ActiveTrail.

Under the 'Active' section, a list of connections is shown. The first connection is 'Google Contacts' and the second is 'HubSpot CRM'. The 'HubSpot CRM' connection is highlighted with a blue border. To its right, there are three icons: a pause icon, a refresh icon, and an 'activity' icon. A callout box with a white background and a blue border points to the 'activity' icon, containing the text: 'Click on "activity" next to the connection you want to track'. Below the connection list, there is a status indicator 'Running' and a count '210'.

## Step: 03

Here you can monitor the sync activity of all your contacts, resume syncing if it is in progress or you can re-edit and setup the configuration

The screenshot displays the Piesync dashboard for a trial period (14 days remaining). It features a dark header with the Piesync logo, a trial status, and navigation links for '+ New Connection', 'My Connections', and 'Get support'. A yellow banner offers a '25% off discount'. The main content area shows a connection between 'Google Contacts' and 'HubSpot CRM'. A callout box explains: 'Here you can monitor the sync activity of all your contacts, resume syncing if it is in progress or you can re-edit and setup the configuration'. Below this, there are buttons for 'Pause' and 'Configuration', with a 'Sync again now' link. The dashboard includes four summary cards: 'New Google Contacts contacts TODAY' (0), 'Updated Google Contacts contacts TODAY' (0), 'New HubSpot CRM contacts TODAY' (210), and 'Updated HubSpot CRM contacts TODAY' (0). A line chart shows sync activity over time. A 'New: Health!' message encourages monitoring sync activity. At the bottom, there are three summary boxes: 'failing to sync' (0), '463 excluded' (with a 'view list' link), and 'duplicates' (0). A chat icon is visible in the bottom right corner.
